Stack's Bowers Galleries is Pleased to Welcome You to Our 2015 ANA World's Fair of Money Auction!

Our official world coin and paper money auction of the ANA World's Fair of Money offers an impressive and diverse assemblage of numismatic material. As one of our most important events of the year, our 2015 ANA catalog contains many properties that have patiently waited for this extraordinary venue to cross the auction block. We hope that you will find the coins and banknotes in this sale as compelling and enjoyable as their current owners have found them during their stewardship.

Session A, a live auction composed of Showcase ancient and world coins, will commence on Wednesday, August 12 at 10:00 AM Central Standard Time. With nearly 500 lots crossing the block, there are sure to be coins of interest for nearly every collector. Among ancients, highlights include a Syracuse AR Decadrachm by Euainetos, a Ptolemiac Egypt AV Octodrachm, a late Roman Empire Honorius (as Emperor) gold piece (unique), and Etruscan pieces such as an Eturia Gold 25 Asses in an absolutely sensational state of preservation.

The world coins within this same session are equally impressive. Beginning with gem Albanian issues from the reign of King Zog and ending with an early 17th century counter-marked Maltese silver Taler from the reign of Alof de Wignacourt, many lots of the most highly desirable world coinage will be presented.

Among the many sensational selections will be found an extremely rare and possibly unique 1591 Trier Taler graded MS-62 and an 1806-A Prussian Double-Frederick d'Or graded MS-63 by NGC, the finest graded by an astounding 23 point margin. From the German State of Pfalz-Electoral, a Taler dated 1611 and struck during the regency of Johann II von Zweibruckren will be offered, as will many other German states coins with several concentrations such as the four different type 18th century Taler issues from Regensburg. From nearby Czechoslovakia, offerings include a 1936 gold 10 Dukatu in MS-63 and the exceptionally rare 1934 Kremnica Mines complete set (4 coins plus medal) in denominations of 1,2,5 and 10 Dukaten.

Coin from France will feature an impressive King Henry VI (1422-1461) Salut D'Or graded MS-65 by NGC, a Merovingian gold Tremmissis struck in Orleans in MS-62, and 50 other French gold coins, all in certified holders. Before leaving our offering of French coins, be sure to look at the 1929 six piece Essai set, complete with case and displaying some of the best 20th century French coinage designs ever struck.

British highlights include a Double Crown ND (1631-32) struck under Charles I in NGC EF-45, along with a 1687 Guinea graded MS-64 by NGC. We also offer gold issues from the reigns of Edward III, Henry VII, Henry VIII, Edward VI, James I, William and Mary, William III, all of the Georges, (I, II, III, IIII) and on into the modern era of Queen Victoria. Among the impressive British silver issues will be found a proof 1826 Septimo Crown in NGC PF-63, one of only 150 minted! The later Internet-only session contains British Maundy sets, many sold in group lots, that will be of interest to specialists.

South American gold offerings are abundant, with a selection of Brazilian gold that features multiple examples of the enormous Joao V 20,000 Reis coin, in all four different dates! Other South American gold issues include over a dozen Escudo denominated coins from Bolivia, Chile, Colombia, and Costa Rica. Among coins of Italy and the Italian States there is a strong representation of Naples and Sicily including a 1776-BPCCC gold 6 Ducati in MS-63, the finest graded example by 2 points, and an 1851/0 gold 30 Ducati in MS-61. While perusing the Naples and Sicily section, be sure to note the 1834 silver 120 Grana in eye-popping MS-66 condition (yes, you read correctly, 66!) and the 1810 silver 12 Carlini (a favorite of world crown collectors) in NGC AU-55. Finishing out the evening will be an elusive and exotic fantasy issue, the 1888 Madagascar Kirobo in NGC MS-67.

Session B continues our live World Coin offerings beginning on Friday, August 14 at 10:00 AM Central Standard Time. The session opens with over 60 rare Mexican coins, in nearly every denomination and series a collector could desire. Highlights include an early series Carlos and Johanna 4 Reales, along with many other rarities from the very early days of the Mexico City mint. If your passion lies more with Mexican gold, you are in for a real treat, as there are over a dozen different 8 Escudos coins alone. There are also many later decimal issues, including a complete run of mint state 50 Peso coins from 1921 through 1931. In addition, you will find many 19th century gold pieces, most in mint state. Modern rarities crossing the block include several extremely rare proof Onza issues, one as part of a 1999 set.

The session then moves to an important selection of coins from Holland, Utrecht and Zealand, followed by a foursome of Norwegian silver Speciedalers that are some of the most desirable ever struck. Among them is a 1662 Speciedaler struck under Frederick III while the witch trials took place in Norway. Next to cross the block is more gold from South America in the form of Peruvian 8 Escudos and 100 Soles coins, followed by rare issues from Danzig, Poland, and Portugal, including an 1845 Portugal 5,000 Reis graded NGC AU-58 with a mintage of just 401.

From Russia, the depth of coins offered is breathtaking, including an 1831/0-CNB platinum 6 Ruble in MS-62 by PCGS, an 1841 Marriage Ruble in Proof-63 by PCGS, and a spectacular 1858-CNB OB Ruble in NGC Proof-66 Ultra Cameo that features full black and white contrast. The session then moves on to Swiss Talers from the 18th and 19th centuries, many that are finest, tied for finest, or close to finest graded, with many pedigreed to the Q. David Bowers Collection.

Session C then commences on Friday, August 14 immediately upon the conclusion of Session B, with an outstanding offering of rare banknotes, comprising over 200 showcase lots, with several specific concentrations of important notes. Included is a very strong selection of Brazilian notes with a major emphasis on quality. Several rare designs will be offered that are the finest we have ever handled and top the PMG population reports. Other important rarities include a marvelous selection of British Commonwealth, with many notes again representing the finest available material.

All in all, the Stack's Bowers Galleries Official Auction of the ANA World's Fair of Money is a terrific opportunity to add some highly sought after material to your collection, no matter what your focus may be. In addition to the Showcase sessions to be held the week of the convention, there will be a series of Internet-only sessions the following week (Sessions D and E), with live online bidding at the close of each session. With many desirable world coins, ancients, and bank notes in these sessions, you will want to check out these offerings as well.

I would like to thank each of you on behalf of Stack's Bowers Galleries for helping us to make the 2015 ANA auction a memorable and successful event. We hope to see you at our Irvine and New York offices for lot previewing, and we look forward to renewing acquaintances and trading numismatic stories with you at the main event in Chicago. Until then, enjoy your journey through the catalog, and if you have any questions please don't hesitate to give us a call.

Upon Alexander's death, his body was of course brought to Memphis by Ptolemy I. It was custom for the Macedonian king to attain their right to the throne through burial of their predecessor. This is one of the ways that Ptolemy ensured that Egypt was his. Alexander's body was later moved to Alexandria under Ptolemy II. When in Rome "Si Fueris Romae"

30087 AE Tessera (Erotic Spintra) (4.57 gms). cf.Simonetta Riva-Obv. Scene 9, Rev. Scene 6D; Buttrey-Obv. 11/XV. Erotic scene, man kneeling between the legs of his companion, who with slightly erect torso lies on her back against a cushion atop a low couch, curtains hanging from table and above the scene, slight linear border around; Reverse: Roman numeral "XV" (for fifteen) within dotted border, wreath around. Well rounded. A pleasing cocoa brown obverse with minor verdigris and slight orange highlights. The reverse has a slightly higher proportion of verdigris or deposits but it has a nice strike.

These small bronze tokens were created, according to their obverse designs and scholarly research, for use as payment in brothels. Some theories also present the notion that they were used as gaming tokens. Their use in brothels seems supported by the ancient roman historian Suetonius (most famous for his biography on the twelve Caesars), who states that bringing a coin or other object with the effigy of the Roman Emperor into a brothel was an act of treason punishable by law. These licentious tokens seem a good work-around to using common coinage when visiting an erotic establishment. The obverse design mirrors that of the Erotic Frescoes found on the wall of the brothel in Pompeii. Well struck and choice for type, with excellent detail. **EXTREMELY FINE. ..... $5000-$7000**

ALBANIA

30117 2 Franga Ari, 1926-R. KM-7; Mont-44. Sower walking right. Issued under King Zog while president prior to his self-coronation as king of Albania several years later. Struck at the Rome mint, designed by Giuseppe Romagnoli and instantly recognizable as a product of his artistic talent. Attractive peachy-rose tone over gem surfaces. **NGC MS-65. ..... $1000-$1350**

30118 100 Franga Ari, 1926-R. Fr-1; KM-11.1. No star below bust. Mintage of only 6,614 pieces for all varieties of this date. Frosty slider with a trail of cabinet fraction across the neck and cheek. Nice rims, small lamination at the denomination in reverse exergue. Struck to Latin Monetary Union standards. **PCGS AU-58. ..... $1200-$1600**
PCGS #15091.

30119 100 Franga Ari, 1926-R. Fr-1; KM-11.3. Two stars under bust. Mintage of only 6,614 pieces for all varieties of this date. PCGS #15093.

30120 Frang Ar, 1927-R. KM-6; Mont-55. Not the highest graded example of the issue, but with much more pleasant aesthetics than many of the higher graded pieces with incomparable tone. The coin at hand has rich orange color confined within the recesses of the obverse devices, producing a wonderfully pleasant visual effect. In a similar fashion, the reverse tone tends to accentuate the design elements. A tough coin in any grade, and a perfect opportunity to add this attractive Zog-era coin to your collection. **NGC MS-64. ..... $1000-$1350**

30121 100 Franga Ari, 1927-R. Fr-1; KM-11a.1. No stars below bust. Mintage of only 5,000 for all varieties of this date. The most available date and variety of the 6 different types, but what a coin! These typically are seen quite baggy, the assumption being that most followed Zog around in exile after 1939, and were extensively jostled around. To find one with no breaks to the luster in the fields is quite exceptional. An outstanding example of the issue and worthy of a premium bid. **PCGS MS-63. ..... $1900-$2400**
PCGS #190460.

Glistening and massive 53.78 gram coin, the heaviest gold coin struck in the New World prior to the 20th century. Four-year only issue. The example offered is at the very high end of AU, with full mint bloom and flawless never-dropped rims. Just enough wear to the devices within the reverse shield to prevent mint state status. Slightly better date, especially in high grade. Last year of issue for this twenty-year type. A single minor rim anomaly at 12 o'clock on the obverse limits the coin from a higher (possibly much higher) grade, but hardly detracts from the stunning impression this coin makes in hand. 30208 8 Escudos, 1802-NRJJ. Carlos IV (1788-1808). Fr-55; KM-62.1. Vastly superior to most seen of the type. Blazing luster with deep cinnamon tone running through the reverse legends. Well centered, with sharp problem-free rims, and very few marks in the fields. Trace of wear across the high points. **NGC AU-58. ..... $1400-$1800**

30209 8 Escudos, 1807-PJF. Carlos IV (1788-1808). Fr-52; KM-62.2. Bright with mark-free surfaces. Apricot tone through the legends. An elusive issue in this grade. **NGC-62..... $1500-$2000**

30210 8 Escudos, 1816-NRJF. Ferdinand VII (1808-33). Fr-60; KM-66.1. The highest seen by either grading service by a four point margin. Booming luster from frosty fields, with sharp denticles and rims. Touch of weakness at the center which does not detract from the stunning impression this piece leaves upon initial inspection. **NGC MS-62. ..... $2000-$2500**

COLOMBIA

30211 16 Pesos, 1840-RS. Fr-74; KM-94.1. Tied with two other pieces for finest seen at the grading services. Blazing luster with the fields every bit as frosty as the protected areas in the legends. A magnificent example. **NGC MS-63. ..... $2800-$3200**

COSTA RICA

30214 8 Escudos, 1828-CRF. Fr-1; KM-17. An impressive example of the issue with light even tone and modest wear. Partial facial details remain on the sunface, with most of the texture remaining on the mountains. The leaves are well struck and nearly complete, with the usual wear to the high points on the reverse evident. Original mint luster can be detected along a slender band by the denticles, with edges that are completely free of nicks or bumps. This large gold coin is always in demand; the supply available will likely never provide every collector with an example who wants one. As such, even specimens with problems tend to draw very strong bids. The coin up for bid here is without impairment of any kind, and right on the cusp of EF. If you've waited until now to find a problem-free example, this is the coin you have been waiting for. **PCGS VF-35. ..... $4000-$6000**

30215 1/2 Escudo, 1847-CRJB. Fr-5; KM-13.1. Tied for finest seen at NGC. Diminutive, but what a state of preservation! Original frost and flash pours from this little jewel. **NGC MS-63. ..... $1000-$1300**

30216 1/2 Escudo, 1848-CRJB. Fr-5; KM-13.1. Superior example. The slightest roughness to the edges from less than perfect centering preventing a higher grade. **NGC MS-62. ..... $700-$1000**

COSTA RICA

30217 10 Pesos, 1870-GW. Fr-11; KM-115. Three year only issue, and far less commonly encountered than the Colones denominated gold coins from later in the 19th century. The specimen offered is an original coin with a nice strike. Bold legends, denomination, and central devices. Semi proof-like fields and warm amber toning along with flawless rims. A die crack extends from the rim to the wreath at 4 o'clock on the reverse. Nice for the grade and fully problem-free unlike so many others seen of this issue. **NGC AU-55. ..... $1200-$1500**

30218 10 Pesos, 1870-GW. Fr-11; KM-115. Sharp details in the shield with multiple die cracks extending from the rim. The cracks are so extensive it's hard to imagine many more coins being struck without the die shattering completely. The reverse also shows significant evidence of die anomalies; a clash so deep that the entire outline of the shield is evident. An interesting coin to explore, and from a better country as world gold coins go. **PCGS AU-55..... $1200-$1500**

CZECHOSLOVAKIA

30219 4 Dukaten, 1928. Fr-7; Bruce-M4. Struck to commemorate the 10th anniversary of the Republic. Terrific design, with the devil enslaved and plowing a field. Copious amounts of luster that effortlessly dance off the surface of the coin. A premium example of the issue, with a tiny abrasion on the rim at 7 o'clock reverse probably delineating the grade, and only noticeable if you are searching for it. **PCGS MS-64 Secure Holder. ..... $700-$1000**

PCGS #415419.

30220 Ducat, 1929. Fr-2; KM-8. Scarce date. A comparatively lower mintage figure of 10,253 pieces. A choice piece with a terrific strike, and without the copper spots that tend to plague Czech gold coinage from the era. **NGC MS-63. ..... $700-$1000**

30221 2 Dukaty, 1932. Fr-1; KM-9. Bright lemon-yellow gold and with a mintage of 5,496 coins. Exceptionally nice for this grade level, and without copper spotting that tends to plague Czech gold coinage of the era. **NGC MS-63. ..... $1000-$1200**

PCGS #4964.

30222 10 Dukatu, 1933. Fr-4; KM-14. Mintage of 1,780 pieces. Full brilliance, great luster, and sharp details. Fresh looking yellow gold, and without any copper spots somewhat common to Czech gold coinage from this era. The largest gold coin denomination struck for Czechoslovakia (containing over an ounce Troy of gold), and at once impressive given its expansive 42mm diameter. **NGC MS-65. ..... $6000-$8000**

30223 5 Dukatu, 1933. Fr-5; KM-13. Mintage of only 1,752 pieces. Nice bright example of this popular type, and without copper spots common to Czech gold issues of the era. **NGC MS-64. ..... $3000-$3500**

CZECHOSLOVAKIA

30224 10 Dukatu, 1936. Fr-4; KM-14. Mintage of only 633. Individual pieces typically remain in the same collection for many years, hence quite infrequently offered. PCGS has never seen one, while only seven have been graded at NGC, all in various mint state levels between MS-63 and MS-67. The piece offered has an abundance of rich satin luster, with a few light hairlines behind the horses tail being the only marks worthy of mention. The reverse die must have been wire-brushed at the mint, as fine raised vertical lines are evident when inspected with a loupe. A scarce and always in demand large diameter world gold issue from between the wars. Do not miss this opportunity to add it to your collection. **NGC MS-63. ..... $8000-$10,000**

30229 100 Piastres, 1916. Fr-24; KM-324. Ten at this grade, with two certified finer in MS-65 at NGC and PCGS. From the "British Occupation" period as indicated on the holder, which for practical purposes lasted from 1882 until 1951, but which is only assigned to coins from the First World War era. Exceptionally nice example for the issue, most of these turn up cleaned or circulated. **NGC MS-64. ..... $900-$1200**
PCGS #661000.

30230 500 Piastres, AH 1340 (1922). Fr-26; KM-342. Has the look of a lightly circulated proof. A shot at mint state status if it were frosty and not proof-like in the fields, the mirrors tending to accentuate the handling marks. A coin whose value has held-up remarkably well over the past decade, with a solid track record of appreciation in all grades. **PCGS AU-58 Secure Holder. ..... $2000-$2500**

A spectacular and fully original example of this elusive coin. **PCGS AU-55 Secure Holder. ..... $2200-$2800**

Struck at the height of the French Renaissance at a time when absolute monarchy also took hold in France. 30248 1/2 Ecu, 1791-A. Louis XVI (1774-90). Dup-1709; Gad-355. Stands alone as the finest certified example at both NGC and PCGS. Light to medium obverse pewter coloration with a shoreline of garnet-orange tone along the portrait and through the legends. The reverse is a bit more smoky with plenty of pop from the underlying luster. Struck the year after Louis XVI had been deposed, but before the Jacobins and Girondins (two revolutionary factions) could decide on what to do with him. The Jacobins eventually prevailed and the king was executed less than 2 years later. The piece offered here for your consideration is a masterpiece of numismatic art, and in a near perfect state of preservation. Coins of this quality tend to remain off the market for many years; an opportunity not to be missed. **NGC MS-64. ..... $1000-$1500**

30249 Ecu, 1792-A. Louis XVI (1774-90). Dav-1335; Gad-55; KM-615.1. A trifle of weakness to the strike, with a shallow adjustment mark across Louis' chin. Even clear apricot tone with much luster showing through. By 1792 the king's fate was pretty much sealed, though he continued to be depicted on French coinage. First year of the standing genius reverse, which must have seemed as revolutionary to the denizens of France as the revolution itself **NGC MS-62. ..... $800-$1200**

Finest known at the grading services by a 12-point margin. Wonderfully expressive portrait of Louis XVI with a solid strike bringing out nearly all of the detail. Some reverse adjustment marks noted, most prominently across the base of the easel. Attractive even color overall and fully original. It's hard to imagine a nicer example of the coin existing anywhere. **NGC MS-62. ..... $2000-$3000**

30251 20 Franc, 1813-W. Lille Mint. Napoleon, as Emperor (1804-14). Fr-512; KM-695.10; Gad-1025. We auctioned-off a similar piece at last year's ANA that hammered for $7,000. Though a point lower in grade, the coin offered here is arguably just as nice, and has half the mintage of last year's offering (dated 1810). That said, this example features booming luster and near flawless surfaces with minor adjustment marks seen along the obverse rim between 10 and 1 o'clock. Struck near the end of Napoleon's rule, this gold coin fell from the presses oblivious to the crushing defeat the Russians handed Bonaparte the previous year. **NGC MS-64. ..... $2000-$3000**

Very expressive portrait, the grade being more determined by the rim hit at 12 o'clock on the reverse than any actual wear. A heavy gold coin without laurels from the first decade of Napoleon III. **PCGS AU-55..... $1100-$1300**
PCGS #158133.

30265 50 Franc, 1858-A. Fr-571; KM-785.1; Gad-1111. Second lowest mintage of the type. Solid mint state coin with very few abrasions. Nice. **NGC MS-62..... $800-$1000**

FRANCE

30266 100 Franc, 1859-BB. Fr-570; KM-786.2; Gad-1135. Mintage of only 9,305 pieces. From the Strasbourg mint, a city Napoleon III lost to the Germans in his disastrous adventure otherwise known as the Franco-Prussian War. Quite nice for the grade, most would call it a full UNC if it were raw. A couple light scratches in front of the portrait being the only detracting features worthy of mention. A neat coin with a provocative historical story. **PCGS AU-58..... $1500-$2000**

30268 100 Franc, 1862-BB. Fr-581; KM-802.2; Gad-1136. Mintage of only 3,078 pieces. Napoleon III issue with laurels, the less available of the two type 100 Franc gold coins. Fairly clean for the grade, the exception being a rim hit at 4 o'clock on the reverse that limits the grade. **PCGS AU-53..... $1500-$2000**
PCGS #167115.

30269 50 Franc, 1864-A. Fr-582; KM-804.1; Gad-1112. As a type, much scarcer than the earlier bare-head variety. Couple very minor ticks to the cheek result in the grade. Great looking fields attesting to its full uncirculated status. **NGC MS-61. ..... $800-$1000**

30270 100 Franc, 1865-A. Fr-580; KM-802.1; Gad-1136. Lowest mintage (1,517) of the eight years these were struck for circulation, and far and away the key to the series, though none of the dates are exactly abundant. FRANCE

30272 100 Franc, 1869-BB. Fr-581; KM-802.2; Gad-1136. Mintage of only 14,000 pieces. A bold and crisp coin with impossibly intricate detail in the reverse shield along with a clean portrait. Every bit uncirculated and fully original. The dies (both sides) had been severely wire brushed by the time this coin was struck, and there is clear evidence of raised lines in the fields, especially on the reverse. Last year of the issue in Strasbourg, struck on the eve of the Franco-Prussian War. Upon France's humiliating defeat, Otto Von Bismarck was said to have remarked: "Fools learn from experience. I prefer to learn from the experience of others". **PCGS MS-61..... $2000-$2400**

30298 Baden, 3 Mark Pattern, 1915-G. Schaaf-39 M1. Plain Edge. Specimen coinage struck in aluminum at a time when World War I was in full swing. Neither the coinage nor the Grand Duchy of Baden would survive, as it was never adopted for production and the duchy itself became a republic after the war. An interesting piece with excellent luster and in a fabulous state of preservation. Given the unstable properties of aluminum over any considerable period of time, it's amazing there isn't a trace of corrosion on the piece.

He succeeded his father in 1604 and then two years later in 1606 he reclaimed the lordship of Bischweiler for the house of Wittelsbach. In 1611 he executed the appendages of Landsberg and Neukastell to his younger brothers Friedrich and Johann respectively in favor of his father's disposition while keeping most of Zweibrucken for himself. He was also the guardian of Frederick V, elector Palatine between 1610 & 1612 who would go on to become the King of Bohemia (1619-1620). Due to his short reign Frederick V was nicknamed the "Winter King". Finest Graded 1806
2 Frederick d'Or Berlin Mint

GERMANY

30321 **2 Frederick d'Or, 1806-A. Friedrich Wilhelm III (1797-1840).** Fr-2421; KM-381. Finest graded by a twenty-three point margin. An exhilarating piece to behold, possessing nearly everything a collector could possibly want in a rare coin. Struck during a particular dark year for Prussia, as Napoleon crushed the Prussian army at theBattle of Jena–Auerstedt. As a result, Frederick William III was forced to seek refuge in East Prussia while also seeking assistance from Tsar Alexander I of Russia. In addition to losing most of their Polish territories, the Prussians were forced to pay indemnities to help pay for the French troops occupying their own country. And yet, in spite of all the calamity occurring in nearly every corner of the state, this breathtaking coin somehow fell from the mint presses in Berlin that year. The state of preservation is simply mind-boggling, with nearly proof-like fields bouncing light effortlessly off the fields of the coin while frosty surfaces take up residence on all of the devices. Razor sharp details throughout, producing a masterpiece that is simply unsurpassed in beauty. Possibly UNIQUE Trier Taler of Johann VII

GERMANY

30337 Trier. Taler, 1591. Johann VII (1581-99). Dav-9923; MB-101. EXTREMELY RARE and possibly UNIQUE. The coin presented here is in exceptional condition, and likely the finest extant. The large silver Taler depicts Saint Peter striding left with the key to heaven on the obverse. On the reverse, a mitre atop the combined arms of Trier and Schönenberg. Struck under Johann von Schönenberg (Archbishop-Elector of Trier) at the height of the Trier witch trials and as such of extraordinary historic significance. A great admirer of the Jesuits and a leading figure in the counter-reformation, Johann von Schönenberg spearheaded the mass killing of three hundred sixty-eight in the cities and towns surrounding Trier, with perhaps as many as one thousand souls in the diocese as a whole eventually facing execution of the twenty-two villages near Trier purged of witches, two villages were left with only a single female survivor. No one was immune from the accusation of witchcraft and sorcery with a third of the victims coming from nobility, though special emphasis was directed towards Jews and Protestants. Much of the slaughter was driven purely from greed, as examiner and executioner alike prospered from seized property of the accused. From a very troubled time in Europe, the coin offered presents a terrific opportunity to own a piece of sixteenth century German cultural history, albeit dark and morose from any perspective. **NGC MS-62. ..... $25,000-$35,000**

30338 Wurttemberg. Taler, 1803. KM-481; Dav-935; KR-16; Ebner-34. RARE one-year type. Lovely even cabinet toning with very light rose hues. A razor thin die crack can be noted in the right field of the reverse and a few small planchet defects can also be seen, both of which are not uncommon for this issue. An attractive classic looking Taler. **NGC MS-61. ..... $4500-$5500**

Struck the year of the Declaration of Indulgences, when James II granted broad religious freedom by suspending the penal code which had previously prohibited affiliation with any church outside the Church of England. The declaration, strongly endorsed by William Penn, is generally considered the beginning of religious freedom in the British Isles. A historically significant piece, and destined for a collection of the very best King James II coinage. **NGC MS-64. ..... $9000-$12,000**

30395 2 Pounds, 1823. George IV (1820-30). S-3798; Fr-375; KM-690. Razor sharp rims without defect set the standard for this always popular issue. Bountiful amounts of luster peer out from beneath the legends, with virtually all of the hair detail present and accounted for. No significant abrasions. In many ways, superior to a bag-marked fully uncirculated piece with a higher grade. **NGC AU-58. ..... $1400-$1700**

30396 Sovereign, 1821. S-3800; Fr-376; KM-682. Bright, lustrous, and glowing. Appears to have been set aside at the time of minting. First year of issue for the type. Reverse fields display significant reflectivity though not fully proof-like. The hair and laurels show every last bit of detail, all the way down to the veins in the leaves. A remarkably choice example of the coin. **NGC MS-62. ..... $1200-$1500**

30397 Sovereign, 1829. S-3801; Fr-377; KM-696. Plenty of luster, resembling a select uncirculated coin. Just over a dozen graded MS at the grading services, which explains the dramatic leap in catalog values in anything higher than VF. Quite elusive at this rare level of preservation. **NGC MS-61. ..... $900-$1150**

30398 Crown, 1826-SEPTIMO. George IV (1820-30). S-3806; KM-699. Diminutive mintage (150 pieces) and an overwhelming collector demand, combine to form the perfect storm of desirability. Overcast color tone with lilac and periwinkle sheen that leaps from the obverse fields. Razor sharp strike (as one would expect on a British proof-only issue), along with absolutely flawless rims. The hair detail and high relief portraiture produce what is undeniably one of the most beautiful coins ever struck. The specimen offered here ranks up there as one of the nicest extant. **NGC PROOF-63. ..... $8000-$10,000**

30399 Crown, 1826. S-3806; KM-699. "SEPTIMO" edge. RARE proof-only issue with a recorded mintage of a mere 150 pieces. Fully toned with hues of russet and blue throughout. With red leather case of issue. **NGC PROOF-62. ..... $7000-$9000**

30400 Sovereign, 1836. S-3829B; Fr-383; KM-717. Second bust. Less frequently seen than the 1837 issue in spite of the similar mintage. Clean rims, good overall color and plenty of detail remaining in the hair. **NGC AU-55. ..... $750-$1000**

30401 Sovereign, 1837. S-3829B; Fr-383; KM-717. Second bust. Plenty of remaining luster, especially on the reverse. Portrait is generally mark-free with just enough rub in the obverse fields to define the grade. Last year for the type. **NGC AU-55. ..... $800-$1100**

GREAT BRITAIN

30402 Sovereign, 1837. William IV (1830-37). S-3829B; Fr-383; KM-717. Final year of issue. Plenty of luster remaining in the reverse fields, confined primarily to the legends on the obverse. Substantial facial detail, with the hair sustaining most of the wear on this attractive coin. Clean sharp rims. **NGC AU-50. ..... $700-$1000**

30403 Pattern Crown, 1837. ESC-320. By Bonomi. RARE. The dies for these pieces were sunk in 1893 by Mr. Theophilus Pinches and then later offered by Mr. J. Rochelle Thomas. A proposed mintage of 196 pieces, which included 150 silver, 10 tin, 10 bronze, 10 copper, 10 aluminum, and 6 in gold. The example offered appears to be one of the silver plain edged pieces without number. Other types include pieforts, uniface, and some with various edge treatments. Likely a pocket piece at one time, given its extensive wear. A great opportunity to add this always in demand British pattern from the reign of Queen Victoria. **NGC VF-25. ..... $900-$1200**

30404 Sovereign, 1853. S-3852c; Fr-387e; KM-736.1. "W.W." raised on truncation. Viable gold Sovereign candidate for a high grade type-coin collection. While not a rare date, the majority of the coins submitted at the grading services suggest the issue is available up to AU, then becomes quite elusive in the higher mint state grades. The example offered is bright and without a trace of tone. Just enough chatter to limit the grade, but with a full cartwheel of luster on both sides. **NGC MS-63. ..... $1000-$1500**

30405 Sovereign, 1853. Fr-387e; S-3852c; KM-736.1. "W.W." raised on truncation. Nice strike with attractive satin luster. **PCGS MS-63 Secure Holder. ..... $1000-$1500**

30406 Sovereign, 1871. Fr-387i; KM-736.2; S-3853B. Shield type with die number 28. While readily available in lower grades, at this lofty condition they become much more difficult to locate. Frosty unimpaired fields complement the other equally nice features of the coin. **NGC MS-64. ..... $1000-$1200**

30407 5 Pounds, 1887. S-3864; Fr-390; KM-769. Hefty chunk of Jubilee gold, and guaranteed authentic. Hairlines present, as noted on the holder, but do not distract much from the beauty of the piece. Sharp rims and very close to mint state aside from the impairment. **NGC AU Details—Surface Hairlines. ..... $2000-$2500**

30408 Crown, 1847. S-3883; KM-744. Gothic type. "UNDECIMO" on edge. Foreboding gray toned obverse, with central devices on the reverse that are apparition-like against the much darker toned peripheral legends. The portrait is mark-free with just a few hairlines in the obverse field near Victoria's nose accounting for the conservative grade. **NGC PROOF-61. ..... $3000-$4000**

30409 Penny, 1877. Victoria (1837-1901). S-3954; KM-755; Freeman-93. Obverse 8, reverse J. Large date. Reverse is full brown with a glossy blue sheen over a razor sharp effigy and hard smooth fields. **PCGS PROOF-65 BN Secure Holder. ..... $1500-$2000**

30410 Queen Victoria Golden Jubilee Gold Medal, 1887. 58.33 mm; 87.35 gms. Eimer-1733a; BHM-3219. Crowned, veiled and draped bust of Queen Victoria left; Reverse: Queen Victoria enthroned facing with personifications of Science, Letters, Arts, Industry, Agriculture, Empire and Mercury around, five linked shields below naming the regions of the British Empire. Terrific high relief portrait with a clean cheek. Some wispy hairlines in the fields from old cleaning and a few light track marks on reverse. Slightly nicer than an example we sold at the January 2015 NYINC as Lot 1105 which hammered for $9,500. With black leather case of issue. **BRILLIANT PROOF. ..... $4000-$5000**

30411 Lot of (7) Maundy Sets, ca. 1902-08. KM-MDS159-MDS165. 28 pieces in lot. Includes: (7) (4) piece sets of Edward VII from each year between 1902 and 1908 inclusive. Light to moderate toning with some sets showing cobalt and maroon at periphery over lustrous surfaces. Also included is an undated green plush leather case for a four piece Maundy set. While undated, the silk inner lining is stamped, "SPINK & SON,/ DIE SINKERS & MEDALLISTS,/ 17 & 18 PICADILLY, LONDON,W." which would date this case to between 1897 when they acquired that address and 1903 when they became Spink & Son Ltd. Catalog value of about $1,500. **SOLD AS IS/NO RETURNS. MINT STATE. ..... $700-$1000**

30412 Franco British Exhibition Gold Medal, 1908. By F. Bowcher. 31.70 mm; 24.30 gms. BHM-3960 var.; Eimer-1903 var. Personifications of Britain and France seated facing one another, angel standing behind holds laurel cluster and encourages peace; Reverse: Draped female figure stands at left holding laurel and regards plaque below, exhibition buildings in distance. The plaque is stamped, "BANQUE DE L'AFRIQUE OCCIDENTALE". Edge is marked with two privy stamps and the word "OR". An interesting piece given that neither the BHM nor Eimer references note a gold medal being issued in this size. Eimer does state that the souvenir catalog of the exhibition mentions awards of this small diameter but, "no example has been noted." A very attractive little medal with sensational artistic qualities, and showing virtually no sign of handling. A lovely satin finish with some toning in the protected areas, otherwise lustrous. In a red plush fitted leather case of issue from Messrs Vaughton of Birmingham. **CHOICE ALMOST UNCIRCULATED. ..... $1000-$1500**

A single minor tick on the rim at 3 o'clock on the reverse delineates the grade. **NGC PROOF-63..... $3500-$5000**

Reasonably well matched and likely from the same set since all three holders have the same NGC submission number. These gold proofs are the only gold issues struck for George VI, with a mintage of 5,500 pieces each. Choice flashy honey gold color with great flash and brilliance. **NGC PROOF-55 (2) & PROOF-61 (1)..... $2500-$3000**

30422 Goldgulden, ND. Maria of Anjou (1382-87). Fr-8; Huszar-564; Rethy-111. Amazing strike that brings up all of the detail. Flashy honey-gold color with satin luster. A nearly identical example also graded MS-63 by NGC brought $8,000 plus premiums in the Eric P. Newman sale (Heritage Sale 3029, Lot 30159). The Newman example exhibited some weakness in the legends, we feel ours is nicer. Includes the flip from Hans Schulman's sale of December 9-10, 1966 as lot 157. **NGC MS-63. ..... $2000-$3000**

Stack's 2009 Ludovico Sale saw a choice AU realize $13,000 at auction. The opening bid on this specimen is set considerably lower. An absolutely spectacular example of the issue that is unequaled in quality and appearance. Essentially as struck with pale champagne tone that is unable to hold-back the luster. Super sharp strike and nearly flawless smooth surfaces. A museum piece from any perspective, and destined for a cabinet of the finest Italian coinage extant. **NGC MS-66.....$700-$1000**

30453 Naples & Sicily. 30 Ducati, 1851/0. Fr-866; KM-368; Gig-12; Mont-685. Scarce overdate. Enough mirroring from the fields to suggest perhaps a slightly impaired proof, especially given the extraordinary degree of detail present in the reverse devices. However, no such issue is recorded in the catalogs. In any case, a highly desirable specimen in full mint state, this example with field abrasions and some ruggedness to the obverse rim. Combined auction records reveal how infrequently these become available for sale, suggesting an aggressive bid will be required to secure this stunning, RARE, and beautiful coin. **NGC MS-61. ..... $3200-$5500**

31032 2 Escudos, 1870-GaIC. Fr-91; KM-380.3. Much evidence of proof-like fields with exceptionally nice detail throughout. From the last year these were struck in Guadalajara. **PCGS AU-58..... $700-$1000**

31033 Culiacan. 8 Reales, 1895-CnAM. KM-377.3; DP-Cn57. Tied with three other pieces at this grade, with just one example certified finer (MS-66+). Superb strike, the detail in the eagle and snake are breathtaking. Abundant luster. Very much a superb **GEM UNCIRCULATED** coin. A single mark in the field away from perfection, located just above "20 G" on the obverse. A piece meant for the finest collection of Mexican 8 Reales. **NGC MS-66. ..... $1800-$2200**

31034 Empire of Maximilian. 20 Pesos, 1866-Mo. Maximilian I (1864-67). Fr-62; KM-389. Genuine example of the legendary Maximillian I gold 20 Pesos. Albeit in the form of a broach with pin nicely attached by gold chain. Sharp reeds and rims, never dropped or otherwise abused. Broach mounted. **EXTREMELY FINE. ..... $1300-$1500**

31035 20 Pesos, 1870-MoC. Fr-119; KM-414.6. Mintage of 14,000 and the first year for the series. Slight weakness seen in the centers as usual, good overall color and flash. Light marks scattered evenly through the fields. **NGC MS-61. ..... $1500-$1800**

31036 2 1/2 Pesos, 1870-MoC. Fr-148; KM-411.5. Mintage of only 820 pieces. First year of issue. Lightly circulated, but never messed with. Sharply struck with attractive luster and good eye appeal. **NGC AU-58. ..... $700-$1000**

MEXICO

31037 10 Pesos, 1871-ZsH. Fr-138; KM-413.9. Tied for finest seen at NGC and PCGS with one other coin. Low mintage of 2,000 pieces and the first year for the twenty-five year run. Reflective fields produce a semi-cameo affect to the devices, especially the reverse. Housed in an older non-Edge View NGC holder, and conceivably the finest extant. If you like them mint state, this is your coin. **NGC MS-62. ..... $1000-$1500**

31038 2 1/2 Pesos, 1871-GoS. Fr-153; KM-411.3. RARE two year issue with a mintage of just 600 pieces. It's been over six years since another sold at auction when Ponterio & Associates sold an EF for $950 as Lot 925 at the NYINC sale in January of 2009. The example offered today is considerably nicer, with somewhat thick tone that doesn't detract from the nearly pristine fields. The lightest trace of wear on the devices is all that stands between the assigned grade and mint state status. **PCGS AU-58. ..... $1500-$2500**
PCGS #84114.

31039 20 Pesos, 1872-MoM. Fr-119; KM-414.6. Mintage of 11,000 making it "common" in a relative sense, yet still a minuscule number. Bit of weakness to the centers as usual helping to decide the grade, along with a bit of chatter in the fields. Good luster and color overall. **NGC MS-61. ..... $1500-$1800**

31040 5 Pesos, 1873-CnP. Fr-139; KM-412.2. Scarce mint with no mintage listed in Krause. A few minor abrasions in the fields over semi proof-like surfaces. Nice luster and quite attractive. **NGC MS-63. ..... $1500-$2000**

31041 5 Pesos, 1878/7-ZsS/A. Fr-147; KM-412.7. Frosty well struck example with just enough variation in luster between the fields and protected areas of the legends to knock it out of uncirculated. Not much in the way of actual wear **NGC AU-58. ..... $700-$1000**

31042 2 1/2 Pesos, 1878-MoM. Fr-148; KM-411.5. RARE date. Mintage of only 400 pieces. Sharply struck, semi proof-like fields and highly attractive. Some tone in the central reverse devices. **NGC MS-63. ..... $900-$1200**

31043 20 Pesos, 1882-MoM. Fr-119; KM-414.6. Nice details with chatter in the fields deciding the grade. Mintage of 5,800 pieces. Good strike and plenty of bright shimmering luster. **NGC MS-62. ..... $1800-$2200**

31044 2 1/2 Pesos, 1888-MoM. Fr-148; KM-411.5. Highly proof-like, and a total mystery as to why the designation is missing on the label. In any case, a mintage of only 540 pieces and in spectacular condition, no matter what the assigned grade may say. Needle sharp strike, proof-like on both sides and great eye appeal. **NGC MS-63. ..... $900-$1200**

31045 2 1/2 Pesos, 1888-Go/MoR. Fr-148; KM-411.3. Clearly over-cut mintmark. VERY RARE. Mintage of only 110 pieces, the entire run probably only took a few minutes to produce. Sharply struck, fully uncirculated detail under lightly cleaned surfaces. **NGC Unc Details—Surface Hairlines. ..... $1800-$2200**

MEXICO

31046 5 Pesos, 1893-MoM. Fr-139; KM-412.6. Mintage of only 1,058 pieces. Just enough handling to cap the grade at 63. Sharply struck, semi proof-like fields and quite attractive. **NGC MS-63. ..... $900-$1200**

31047 5 Pesos, 1901-MoM. Fr-139; KM-412.6. Mintage of only 1,071 pieces. Finest graded at NGC and PCGS. Super high quality, sharply struck with loads of luster leaping from the surfaces. **NGC MS-64. ..... $700-$1000**

31048 50 Pesos, 1921. Fr-172; KM-481. "Centenario" issue, commemorating the Centenary of Independence. Scarce first year of issue with a mintage of 180,000 pieces. **PCGS MS-64 Secure Holder. ..... $1800-$2200**

31049 50 Pesos, 1921. Fr-172; KM-481. Second lowest mintage of the fifteen year run, as well as the first year struck for the issue. 1921 was a pretty good year in Mexico. In spite of the plunging economic fortunes elsewhere in the world, Mexico enjoyed a year of peace and relative stability. Highly lustrous. A hefty chunk of gold with a story to tell. **NGC MS-63. ..... $1600-$1900**

31050 50 Pesos, 1922. Fr-172; KM-481. "Centenario" issue, commemorating the Centenary of Independence. Tied for finest certified at NGC and PCGS. 31063 Onza, 1988-MO. KM-Pn241. Plain edge. EXCEEDINGLY RARE. We could find no past auction results for the variety. Some very trivial evidence of handling in the fields, with no breaks in the frosted devices. **NCS PROOF-66 ULTRA CAMEO. ..... $3500-$5000**

MEXICO

31064 1/2, 1, & 2 Onza, 1999. KM-612, 613, 614. 3 pieces in lot. The larger 2 Ounce Libertad has a reported mintage of 280, and catalogs in Krause for $7,100. The smaller 1 Ounce coin has a mintage of 600 pieces, with a more earthly catalog value of $210, but has recently been trading on eBay for nearly 8x times catalog value. The 1/2 Ounce was minted to 7,000 pieces, and with a modest catalog value of $70, but again the market has these trading at about 8x times catalog on eBay. Obviously an intensely sought after set, these three key components to it should generate some spirited bidding given the reasonable opening bid on the lot. **NGC PROOF-69 ULTRA CAMEO. .....$3500-$5000**

MONACO

31065 100 Franc, 1895-A. Fr-13; Gad-124; KM-105. Modest mintage of 20,000 pieces of which most have been in circulation. The example offered is vastly nicer than typically seen. Struck at the Paris mint and intended primarily for use at the Monte-Carlo gaming tables. At the time this coin was struck, Monte Carlo had recently been wired for electricity, and had already become a highly fashionable destination for well-heeled gamblers. Among other legendary gamblers around the turn of the 20th century, there was said to have been a South African who placed wagers based upon the number of the psalms preached that week at the local Anglican church. Realizing that the great influx of new parishioners were only there to play the numbers of the psalms, the pastor allegedly began avoiding readings numbered lower than thirty-six. **PCGS MS-62 Secure Holder. ..... $1200-$1500**

31066 100 Franc Essai, 1950. Fr-23; KM-E35; Gad-142. From a mintage of 500 but not encountered nearly as frequently as the mintage would suggest. NETHERLANDS

31074 Kingdom of Napoleon. 50 Stuivers, 1808. Louis Napoleon (1806-10). KM-28. A splendid example of this large silver crown, with screaming luster and bold details. From the brief four year French annexation period before things began to go decidedly bad for Napoleon and his puppet rulers. Louis Napoleon (Bonaparte's younger brother) was placed on the thrown of Holland on June 5 of 1806 and earned some respect from his subjects for his efforts to learn Dutch, though at first he stumbled. At one point, he allegedly declared himself "Konijn van 'Olland" (Rabbit of Holland) rather than "Koning van Holland (King of Holland). **NGC MS-64. ..... $1200-$1600**

NEW ZEALAND

31076 Florin 1933 George V (1911-35). KM-4. Remick in his seminal book "The Guidebook & Catalogue of British Commonwealth Coins" estimated a mintage of 20 coins. You are bidding on the only example ever seen by either NGC or PCGS. A rare opportunity, particularly for the specialist who collects Florins as a denomination. While the full proof-set is offered once in a great while, a chance to bid on a constituent part of a set is seldom (if ever) presented. Hard ice mirrors surround satin frosted devices, with just a hint of tone. The coloration is consistent with the 0.500 fine alloy used to strike the issue. **NGC PROOF-64 CAMEO. ..... $1500-$2000**

31077 1/2 Crown, 1937. George VI (1936-52). KM-11. Estimated mintage of 200 and rarely offered for sale. Tied with one other coin for finest seen at NGC/PCGS. Full gem proof with very light tone evenly dispersed across the surfaces. A superior example in every way. **NGC PROOF-65. ..... $1500-$2000**

31078 Florin, 1937. George VI (1936-52). KM-10.1. Estimated mintage of 200 pieces and rarely offered for sale. Second finest seen at NGC and PCGS, with a single example finer in 66. A single tiny nick at the second "E" in George precludes gem proof status. In all other respects, a nearly flawless specimen. Very light, almost imperceptible, tone on the lower obverse fields. **NGC PROOF-64. ..... $1400-$1800**

31079 Florin, 1947. George VI (1936-52). KM-10.2a. One year issue, identical to the 1937 except struck in copper-nickel. For the most part, even fog-like tone over superb gem surfaces. **NGC PROOF-66. ..... $1500-$2000**

NICARAGUA

31080 50 Cordobas, 1967-HF. Fr-1; KM-25. Centennial of Rubin Dario. Over an ounce Troy of gold. Portrait obverse, with a reverse design reminiscent of the Central American Republic. Neat coin and in great condition. **NGC PL-67. ..... $1200-$1400**

NORWAY

31081 Speciedaler, 1648-PG. Christian IV (1588-1648). D-3534; KM-12. RARE. Rich antique coloration with grayish-blue tone all through the legends. Absolutely tantalizing condition, it is difficult to look away once engaged with the coin. Struck the last year of Christian IV's reign, he died on February 28 the year this coin was struck. With a minuscule mintage of 62,000 and very few surviving specimens. Don't miss the opportunity to ad this elusive and seldom offered large silver crown to your collection. Nicely struck with choice iridescent toning and highly attractive. **NGC AU-58. ..... $4000-$6000**

31082 Specie Daler, 1662. Frederik III (1648-70). Dav-3611; KM-56; Sieg-46; H-41. From the reign of Frederick III of Denmark. EXCEEDINGLY RARE, the last auction appearance in May, 2013 (Bruun Rasmussen - Auction 840, Lot 252) saw an example realize €34,869. Their coin was in essentially the same grade as ours, but without problems. The piece offered here has a splendid portrait but light reverse corrosion, with almost-uncirculated details as indicated by the PCGS label. Struck the year of the 1662 Vardo Witch Trails in Norway. The trials spanned a considerable portion of the 17th century, simultaneous to the witch trials in Salem, Massachusetts. The 1662 trail resulted in 20 being burned alive at the stake or tortured to death, for alleged sorcery and making pacts with the devil. A RARE, historically rich, and seldom offered coin housed in an extra thick PCGS holder. **PCGS Genuine—Environmental Damage, AU Details Secure Holder. ..... $10,000-$15,000**
PCGS #252572.

31083 Speciedaler, 1821-IGP. KM-290; Sieg-16; NM-2. Stands alone as finest seen at NGC and PCGS. Medium to heavy pewter tone at the peripheries gives way to brighter glowing silver centers on both sides, spotlighting the portrait and central reverse devices. Portrait is simply breathtaking with every last curl in hair fully struck. Hard to imagine a nicer example being available, in all likelihood, the finest extant. A similar piece in AU-58 hammered for $4,000 in our NYINC sale earlier this year. **PCGS MS-64 Secure Holder. ..... $7000-$9000**
PCGS #758100.

31084 Speciedaler, 1855. KM-317; Sieg-6; Ahl-6. Speciedaler with King Oscar sporting quite a coif on the portrait. Nearly all of the hair detail preserved. Evenly toned with deep darker shades of color apparent upon close examination. **NGC EF-45. ..... $1000-$1300**

PANAMA

31085 1/4 Balboa, 1931. KM-11.1. The key to the series with a mintage of only 48,000 and a conditional rarity. Catalog value sky-rockets at the mint state level. The piece offered here is fully deserving of the assigned grade, with virtually no breaks to the luster on either side. Choice. **NGC MS-63. ..... $900-$1200**

31086 4 Reales, ND (1568-70)-R. Lima Mint. Philip II (1556-98). KM-10.1; Sell-I-2; Cal-Type-202#311. RARE pillar and waves type with denomination above waves only. Hairline flan crack at 7 o'clock. R (Ricon) assayer initial, and from the early days of the Lima mint. VERY RARE without problems. No trace of corrosion or other post-minting abuse like so many others seen in the marketplace. **NGC VF-30..... $2000-$3000**

31087 8 Escudos, 1712-M. Philip V (1700-46). Fr-7; KM-38.2; Cal-Type-5#23. An amazing piece with excellent centering on a nearly round flan. Minor reverse doubling cannot conceal the overall high quality of manufacture. The surfaces of the coin are fully original, the coin looks as if it has never been salvaged. So bright and lustrous, it's as if there were some internal light source powering it. A coin that needs to be seen in hand to be fully appreciated. **NGC AU-50. ..... $8000-$10,000**
Ex: 1715 Plate Fleet.

31088 8 Escudos, 1712L-M. 26.8 gms. Fr-7; KM-38.2; Cal-Type-5#23. Choice centered obverse with both dates clear and bold, as are all of the beads on both sides of the coin. Some evidence of a double-strike, a bit more pronounced on the reverse, but does not detract from the overall look of the coin. Some tone noted in the protected areas of the devices. The piece exudes the same aura of wealth and power that it did three hundred years ago when it was first made. **NGC EF-40. ..... $7000-$9000**

31089 8 Escudos, 1722L-M. 26.9 gms. Fr-7; KM-38.2; Cal-Type-6#35. New World gold. Nicely centered with a deep solid strike that makes amends for the ex-jewelry status. 31102 Peso, 1908-S. KM-172. Combined population of seven, with three finer (all in MS-66) at NGC and PCGS. Much like the other denominations from the same year, the catalog value skyrockets in the higher mint state grades. A true gem, with light multi-colored tone and nearly flawless surfaces. **NGC MS-65. ..... $1500-$2000**
PCGS #90394.

31103 50 Centavos, 1908-S. KM-171. Combined population of two, with one finer (MS-66) at NGC and PCGS. A true condition rarity and vastly more valuable in this pristine condition than similar proof examples of the Philadelphia issue. The female figure is spot-lighted in bright untoned surfaces, with a wide crescent of smoky colored tone covering the remainder of the obverse. Light tone across the reverse. The entire coin is sharp and fully struck. A real prize for the lucky winning bidder. **PCGS MS-65..... $3500-$4500**
PCGS #90355.

31104 20 Centavos, 1908-S. KM-170. Stands alone as the finest seen at both NGC and PCGS. A similar piece graded two points lower hammered at $1,900 back in September, 2014 (Heritage Long Beach, Sale 3035, Lot 31457). The coin offered here throws off amber luster through lightly toned surfaces. The fields are nearly flawless, with no visible marks seen without magnification. A conditional rarity in mint state, worth many multiples of its proof Philadelphia counterpart. **PCGS MS-65. ..... $3500-$5000**

POLAND

31105 3 Groschen, 1580. Olkusz Mint. Stefan Bathory (1575-86). Gum-696. Quite RARE. Much better portrait than usually seen, with full facial details. Crisp legends and devices, both sides, and original pleasing color. **NGC AU-55. ..... $1000-$1500**

EXTREMELY RARE
1824 25 Zlotych

POLAND

31106 25 Zlotych, 1824-IB. Alexander I (1801-25). Fr-108; C-102a; Parchimowcz-1047; Bitkin-817 (R2); UDZ-4526. One at this grade, with one certified finer in 61. Across all grade levels, this is an EXTREMELY RARE date, the 1817 and 1818 being far and away the more common dates. Great luster with a some scattered light handling marks that tend to be accentuated by the semi proof-like fields. From a purely technical vantage point, superior to what the grade might suggest. Sharply struck and quite attractive. **NGC AU-58. ..... $30,000-$35,000**

Ex: Gorny & Mosh October 2013, Lot #5265 where it hammered at 33,000 Euros.

POLAND

31107 50 Groszy (25 Kopek), 1846-MW. Nicholas I (1825-55). Bit-1199; C-131. Well struck with light peripheral tone. A few minor scuffs in the reverse fields determine the grade. **NGC MS-62. ..... $2000-$2500**

31108 200 Zlotych, 1985-CHI. Valcambi Mint, Switzerland. Y-137. Reported mintage of only 5 pieces. Finest seen at NGC and PCGS. Arguably one of the best portraits ever done of Pope John-Paul II. No tone, spots, fog, or other impairments. Don't miss this chance to acquire 20% of the entire emission of this rare coin. **NGC PROOF-68 ULTRA CAMEO. ..... $3000-$4000**

31109 5,000 Zloty, 1988-MW. KM-Y176. Nearly half a Troy ounce of gold. 10th anniversary of Pope John-Paul II. Mintage of only 1,000 pieces. Superb **GEM** condition. **NGC PROOF-68 ULTRA CAMEO. ..... $1000-$1200**

31110 Danzig. 25 Gulden, 1930. Fr-44; KM-150; Parchimowicz-71. Superb gem in every way. A coin that until recently was unavailable to the collecting community. A few were distributed on September 1, 1939 as Hitler invaded Poland, and not until early in the 21st century have any additional coins surfaced. Always an admired design with Neptune on the reverse, the coin is one of only two choices (the other dated 1923) for world gold type collectors if they want to add Danzig to the collection. The small hoard this coin originated from is becoming increasingly dispersed after a number of years on the market. **NGC MS-66. ..... $2200-$2700**
PCGS #597853.

31111 Danzig. 25 Gulden, 1930. Fr-44; KM-150; Parchimowicz-71. Much like the previous lot, a real gem and always in demand. **NGC MS-65. ..... $2000-$2500**
PCGS #597853.

31112 Danzig. 5 Gulden, 1932. KM-157; Parchimowicz-67. Substantial areas of the coin still showing undisturbed lustrous surfaces. A few localized portions with moderate tone, most notably across the head of the right regardant lion and in the reverse legends at 7 o'clock. Very little actual wear, and a great representation of this one year issue. **NGC AU-58. ..... $900-$1200**

31113 Thorn. Ducat, 1648-GR. Wladyslaw IV Waza (1633-48). Fr-58; KM-22.3; Parchimowicz-1889f. RARE. Handsome piece with some evidence of field tooling. A seldom offered coin in any condition, and highly desirable. Last year of reign for Wladyslaw IV, as he died May 20 of that same year. Despite the tooling, still quite presentable. **PCGS Genuine—Tooled, AU Details Secure Holder. ..... $2000-$3000**

PORTUGAL

31114 72 Dinheiros, ND, Fernando I (1367-83). Gomes-72.01. Struck from lightly corroded dies, the resulting coin is still considerably finer to the plate coin in Gomes, with valuations in the same catalog of €5,000 in MBC (good Very Fine). Crisply struck with clear legends under medium tone, somewhat rough surfaces. Any hairline damage is nicely concealed. A rare opportunity to acquire this seldom offered coin from 14th century Portugal. **NGC EF Details—Surface Hairlines. ..... $2000-$3000**
Ex: Passos Collection.

PORTUGAL

31115 500 Reis (Cruzado), ND (1560-78). Sebastian I (1557-78). Fr-41; Gomes-57.05. Struck under Dom Sebastião towards the end of the House of the Avis dynasty, a time of great distress in Portugal. His rule ended with a crushing defeat in the battle of Alcácer-Quibir (1578) during a crusade against Morocco. Sebastião perished in the battle along with most of the Portuguese nobility, and temporarily ended Portuguese independence. The coin itself shows no signs of battle. A real jewel in a splendid state of preservation, with a great strike and flashy luster. **NGC AU-55. ..... $700-$1000**

PCGS #661000.

31116 Vintem (20 Reis), ND (ca. 1578-80). Henry I (1578-80). Gomes-1.05. No surface hairlines readily evident upon inspection, though the coin may have been lightly wiped at one time. It's almost irrelevant in any case given the rarity of the coin. Gomes estimates €5,000 in MBC (Good Very Fine), with the piece offered here arguably surpassing that level of preservation. A touch of ruggedness to the edges, with clear legends and devices. Quite attractive. **NGC EF Details—Excessive Surface Hairlines. ..... $2000-$3000**

31117 6,400 Reis (Peca), 1756. Jose I (1750-77). Fr-101; KM-240. Glowing lemon yellow surfaces with plenty of luster. Super strike and fully deserving of the elite grade. **NGC MS-64. ..... $2000-$2400**

31118 4 Escudos (Peca), 1799. Maria I (1786-99). Fr-116; KM-299. Original and untoned. Amazing detail, with every strand of hair crisp and well defined. Very pleasing. In an older non-edge view NGC slab. **NGC MS-63. ..... $1200-$1400**

31119 6,400 Reis (Peca), 1805. Fr-123; KM-336; Gomes-32.02. Bright untoned color with loads of luster. Moderate obverse porosity. A nice example of the type. **NGC MS-61. ..... $750-$1000**

31120 6,400 Reis (Peca), 1822. Fr-128; KM-364; Gomes-18.05. Exceptionally nice. The reverse in particular is a solid gem, with greenish-gold tone across much of the portrait and obverse fields. **NGC MS-63. ..... $1000-$1300**

31121 6,400 Reis (Peca), 1822. Fr-128; KM-364; Gomes-18.10. Fourteen berries. Super clean piece, with just a few trivial marks in the field in front of Joe's face. The reverse is superb. Flashy untoned piece. **NGC MS-63. ..... $1000-$1300**

31122 3,200 Reis (1/2 Peca), 1822. Fr-129; KM-363; Gomes-17.05. Tied with one other coin at NGC for finest seen by the grading services. Strong, nearly flawless portrait, with no tone. Add in an absolutely immaculate reverse and you have a can't-miss combination. Hard to imagine another MS64 looking nicer. **NGC MS-64. ..... $1200-$1500**

PORTUGAL

31123 6,400 Reis (Peca), 1824. Joao VI (1816-26). Fr-128; KM-364; Gomes-18.28. Type with 16 berries on the left wreath. Super low mintage of only 1,553 for all types combined. Flashy and well struck. Extremely well executed portrait that conveys the cherubic nature of Joao's cheek. **NGC MS-63. ..... $1200-$1500**

31124 6,400 Reis (Peca), 1834. Fr-141; KM-405; Gomes-19.01. Second portrait. Lustrous with much eye appeal. Five at this grade with eight finer at NGC and PCGS. One of a handful of survivors in mint state for this essentially one year-only issue, the 1833 date being exceedingly rare. **NGC MS-62. ..... $1250-$1600**

31125 5,000 Reis, 1845. Maria II (1834-53). Fr-142; Gomez-45.02; KM-476.1. VERY RARE. The only piece ever seen by either NGC or PCGS. Mintage of only 401 pieces. No valuations in any of the catalogs referenced, simply listed as RARE. Proof-like fields lend mirrored characteristics to the coin, with sharp well defined legends and devices. Attractive lemon gold coloration. Maria II was the only European monarch to have been born outside of Europe, in Rio de Janeiro in 1819, and perhaps the first globe-trotting monarch as such. All gold coins from her reign are scarce. Based upon research with dealers in Portugal, the piece offered here is perhaps one of fewer than ten known surviving examples. A coin destined for a Portuguese assemblage consisting of only the rarest and most desirable pieces. Your bid positions you as a member of this fastidious and elite club of collectors. **NGC AU-58. ..... $7000-$9000**

31126 5,000 Reis, 1886. Fr-153; KM-516; Gomes-16.15. Deserving of proof-like designation with mirror fields and frosty gold cameo properties. The mirrored fields tend to accentuate marks and abrasions, which the grading services are merciless about when assigning a grade. Hence the MS-65 designation is really saying something special about the quality of this coin. In hand, it is magnificent. **NGC MS-65. ..... $700-$1000**

PUERTO RICO

31127 20 Centavos, 1895-PGV. Alfonso XIII (1886-1931). KM-22. High grade abrasion-free surfaces. Medium to dark tone with much deeper red color blended in. A splattering of iridescent blues and yellows towards the periphery. Very scarce at this elite grade level. **NGC MS-64. ..... $700-$1000**

ROMANIA

31128 25 Lei, 1906. Carol I (1866-1914). Fr-7; KM-38. A special coin, very few have survived in mint state. A few tiny field scratches, with a very impressive portrait that begs for closer inspection. Bright lemon gold color and totally free of any tone. **NGC MS-62..... $1000-$1200**

31129 25 Lei, 1906. Carol I (1866-1914). Fr-7; KM-38. Struck for the 50th anniversary of rule. Slight rub to the fields impeding luster, otherwise near full detail and quite attractive. **NGC AU-58. ..... $700-$1000**

RUSSIA

31130 Ruble. 1721-K Kadashevsky Mint (Moscow). Peter I (The Great) (1689-1725). KM-157.5; Bit-488; Dia-21; UZD-599. Type with "POCIN" legend error on the obverse. Tied with three others for finest seen at the grading services. Faint touch of wear seen in the laurel/leaves of the portrait and feathers of the eagle, with no marks or abrasions in the fields. Just enough tone to knock out most of the luster, but with such a sharp strike all other considerations are secondary. In fact, it's so well struck that the portrait has medallic-like high relief qualities to it. A very impressive specimen. Another example graded Choice Extremely Fine hammered for $7,500 at Baldwin's 2007 sale as lot #1022. Ours is considerably nicer. **NGC AU-58. ..... $4000-$5000**

31131 Ruble, ND (1705). Peter I (The Great) (1689-1725). KM-122.1; Dav-1642; Bit-178; Dia-1. RARE. Struck two years after the founding of St. Petersburg, at a time when Peter I was cementing his reputation as "The Great". Attractive, with wear to the reverse eagle. Ample detail present and clean undamaged edges. Delightful overall color, with no stains or flan anomalies. Very attractive for the era struck. **PCGS FINE-15 Secure Holder..... $5000-$7000**

Top Condition Census Peter the Great Ruble

RUSSIA

31132 Ruble, ND (1720)-OK. Peter I (The Great) (1689-1725). KM-157.4; Bit-251; Dia-34. Finest graded by two points plus. A monumental coin, struck the year Peter The Great defeated Charles XII of Sweden in the Great Northern War, cementing Russia's dominance of the Baltic region, and in many ways representing the zenith of the Tsar's many accomplishments. A single look at this coin leaves little doubt that it is the finest extant, with the lightest of tone confirming its fully original status. Every detail is fully struck, with crisp features all through the portrait, and reverse eagle feathers that are sharp and well defined. The fields remain free of any marks or abrasions, and the edges are pristine. A Russian coin of the greatest numismatic importance, and one that will instantly launch a collection into the realm of incomparable quality. **NGC MS-63+..... $30,000-$40,000**

A few others out there in EF, and a single outlier in MS-62, with none graded in any AU. Much better condition obverse, with terrific detail all through the portrait along with sharp legends. A hint of azure to the tone in the fields. Reverse shows more wear through the cruciform, with marks. **NGC VF-35. ..... $6000-$7500**

31134 Poltina (1/2 Ruble), 1727. Catherine I (1725-1727). KM-176.1; Bit-66; Dia-1. Later date of the two year issue, and the last year of Catherine I's reign, as she died on May 17th of that same year. Lightly cleaned, with evidence of retoning. Exceptionally well detailed, with a decent flan. A single minor lamination at 7 o'clock on the reverse mentioned for accuracy. Quite attractive. **NGC AU Details—Surface Hairlines. ..... $1500-$2000**

31135 Ruble, 1732. Kadashevsky Mint (Moscow). KM-192.1; Bit-54; Dia-20. Frosty white with plenty of luster. No marks or disturbances to speak of, just a hint of rub on the highest points. **NGC AU-58. ..... $1300-$1600**
PCGS #98270.

31136 Ruble, 1733. Anna (1730-40). KM-192.2; Dav-1671; Bit-64. First (and better date) of the two year issue. Brilliant white and essentially as struck. Smooth, lightly abraded fields. Superb strike revealing a phenomenal amount of detail. Hard to imagine a nicer example at this grade level, with the finest seen at the grading services only one point higher. Highly attractive. **NGC MS-62. ..... $4000-$5000**

31137 1/2 Ruble, 1735. Anna (1730-40). Bit-163; Dia-3. Struck slightly off the center, but with remarkable detail and no problems. Even color, smooth fields, sharp legends and devices. Quite nice for the grade. **NGC EF-40. ..... $800-$1000**

31138 1/2 Ruble (Poltina), 1739-CNB. St. Petersburg Mint. Anna (1730-40). Bit-246; Diakov-2. The finest example seen at NGC and PCGS. Breaks to the luster from chattered fields, but with nearly all the surface detail apparent through the portrait and reverse eagle. Nice even color and struck on a high quality flan. A museum piece at this grade level. **NGC AU-55. ..... $3000-$4000**

Highly Attractive Baby Ivan Ruble

RUSSIA

31139 Ruble, 1741-CNB. Ivan VI (1740-41). Dav-1676; KM-207.2; Bit-21; Dia-6. Emperor Ivan VI Antonovich of Russia, was born in August, 1740 to Duchess Anna Leopoldovna (niece of Empress Anna of Russia). Empress Anna, aged 47 in 1740 was in ailing health and without a clear successor to the throne. She wished to secure the line of her father, Tsar Ivan V (co-regent with Emperor Peter I) while simultaneously excluding any descendants of Emperor Peter I from ruling. To achieve this, Empress Anna adopted the newborn Ivan VI Antonovich and named him successor to the role of Emperor of Russia. Empress Anna died in October, 1740 leaving the eight month old Ivan VI as Emperor with a German noble (Ernst Johann von Biron) as regent. Biron acted as regent for a mere three weeks, before he was replaced by Ivan IV's mother. Just over a year into his reign, Elizabeth, daughter of Emperor Peter I rallied the Russian guard regiments and overthrew the government and ascended as Empress Elizabeth in December, 1741. Elizabeth had Ivan VI and his mother arrested and imprisoned. They were kept in increasingly secretive prisons, with Ivan VI isolated from his family. He was just four years old when he was sent to Kholmogory in northern Russia. There he remained for twelve years, seeing no one but his jailor. Rumors of his imprisonment spread, and he was transferred to a more secure location in 1756 where he was more rigorously guarded and even the fortress commander did not know the identity of the imprisoned Emperor. Emperor Peter III sympathized with Ivan VI, going so far as to visit him and seemed willing to help Ivan VI but was assassinated before he could aid him. When Catherine II ascended the throne, she put in place even more strict orders regarding Ivan VI that he was not to be educated by his guards and be referred to as "the nameless one". Finally, if any attempt was made to free him or relocate him (even with documentation from Catherine II) Ivan VI was to be executed immediately. Despite nearly twenty years of solitary confinement, Ivan VI was aware of his true identity as Emperor, and the knowledge of his presence in the prison spread to other officers in the garrison. An attempt was made to free him, which was quickly foiled due to the secretive orders issued by Empress Catherine II. The conspirators were executed alongside Ivan VI, and the young exiled Emperor was buried quietly inside the fortress. This grisly act secured Catherine II's position as Empress, and ended the decades of mental anguish Ivan VI endured. Sharply struck with highly attractive toning and great eye appeal. **NGC AU-55. ..... $18,000-$22,000**

31157 1/2 Ruble (Poltina), 1777. Catherine II (The Great) (1762-96). Fr-136; C-75; Bit-116; Sev-312. Well struck with details to the facial features clear. Full crown and sharp details to the reverse monogram. Lustrous with even light tone. **NGC MS-62. ..... $1000-$1200**

31160 5 Ruble, 1778. St. Petersburg Mint. Catherine II (The Great) (1762-96). Fr-130b; Bit-76; Dia-371. Mintage of 23,000 pieces, less than half that of the 10 Rubles from the same year. Hole for suspension repaired at 12 o'clock. In all other regards, a very presentable example of this Half-Imperial gold coin, and much like all 18th century Russian gold, highly sought after. **PCGS Genuine—Holed & Plugged, EF Details Secure Holder. ..... $1000-$1500**

31161 10 Ruble 1780-CNB Catherine II (The Great) (1762-96). Fr-129b; C-79b, Bit-31, Diakov-401, Severin-325. Evenly worn with warm honey color gold surfaces, immediatley recognizable as a Catherine The Great "Imperial". Probably the most remarkable thing about the coin would be what's missing, as in the total absence of problems. No major marks in spite of the grade, terrific looking rims, and a portrait that still exhibits a dignified effigy of the Tsarina including near complete facial details through the eyes nose and mouth. The reverse shows a bit more wear, but again, remarkably presentable for the assigned grade. For any collection of Russian coinage missing 18th century gold, here's your opportunity to haul in a big one at what might be a very reasonable price compared to a few short years ago. **PCGS FINE-15. ..... $2000-$3000**

31162 Ruble, 1783-CNBN3. Catherine II (The Great) (1762-96). Dav-1686; C-67c; Bit-235; Dia-458. Pretty thin population at this elevated level. Tied with one other, and two others finer, but none better than MS-62. A lustrous coin with loads of flash under a silvery gray light coat of tone. The fields are remarkably free of any distractions, with just a touch of strike weakness accounting for more of the missing detail than actual wear on the portrait. Nearly complete reverse central devices, and sharp legends all around on both sides. A coin you won't want to miss out on. **NGC AU-58. ..... $1700-$2000**

31163 Ruble, 1783-CNBN3. St. Petersburg Mint. Catherine II (The Great) (1762-96). C-67c; Bit-235, Diakov-458; UZD-1129. A paucity of actual wear, with minor hairlines on the reverse that more logically determined the grade. Compelling overall color with strong residual mint bloom showing through the light tone. **NGC AU-55. ..... $1500-$1800**

31164 Ruble, 1785-CNBRA. Catherine II (The Great) (1762-96). C-67c; Bit-240; Dia-504. Faint stony grey toning, with subdued rosy underlying luster. **NGC AU-53. ..... $900-$1200**

31165 1/2 Ruble (Poltina), 1787-CNBRA. Catherine II (The Great) (1762-96). C-66c; Bit-312; Dia-552. Residual traces of luster all through the legends, with ample detail remaining on Catherine The Great's face. A short planchet crack extending through the coin and visible on both sides, most notably at 4 o'clock reverse. Good overall color, a never messed-with Poltina that is accurately graded and quite attractive. **PCGS VF-35 Secure Holder. ..... $900-$1200**

31166 Siberia. 5 Kopek 1775-KM Catherine II (The Great) (1762-96). C-3; Bit-1150. Deep rich coffee bean brown color, and a super strike. All of the details in the cartouche are fully struck, with the date in particular exhibiting no softness. One of the finest examples known based just on that one criteria, but the rest of the coin is equally as impressive. Some trace of die corrosion noted, though it does not affect any of the central devices. As coinage from Siberia goes, this is one of the nicest pieces you will ever see. **NGC MS-62 BN. ..... $1000-$1200**

31167 Siberia. 10 Kopek, 1780-KM. Catherine II (The Great) (1762-96). C-6; Bit-1044. Two at this grade, with four certified finer at NGC and PCGS. Even medium-dark coloration. Fully struck with none of the usual weakness in the date or central obverse legends. The degree of detail in the carpet beneath the cartouche is simply amazing, as is the fur on the foxes. A joy to inspect and explore. Much nicer looking in the hand than the grade would indicate. **PCGS MS-61 BN Secure Holder. ..... $900-$1200**

RUSSIA

31170 Ruble, 1797-CMOU. St. Petersburg Mint. Paul I (1796-1801). C-101; Bit-18. RARE one year type. Tsar Paul I heavy Ruble from the dawn of his somewhat short reign, struck the year of his coronation. More than 90% of the reeding on the central cruciform of the obverse is still present, as is nearly all of the detail in the four crowns at the terminus of the cross arms. The reverse is equally well preserved with some weakness evident in the legend that can be attributed, perhaps, more to weak strike than actual wear. The ornamental scrolls surrounding the reverse legend are all well defined and exhibit very limited wear. All told, the degree of detail suggests a considerably higher grade than indicated, but the complete absence of mint bloom or frost surely must have contributed to the assigned grade. Clean rims with no evidence of impact contribute to the highly desirable status of the piece. Extremely scare to rare in any condition, this piece warrants a strong bid given its high grade and original condition

Not a good year for Tsar Paul I as he was assassinated on March 11 of the year this coin was struck. As a denomination, all of the Polupoltinnik coins under Paul I are scarce to rare. Locating one in this incredible state of preservation is a real find. Lightly toned and fully original. Worthy of a serious bid.

Mint State Platinum 6 Ruble 1831/0

RUSSIA

31180 6 Ruble, 1831/0-CNB. Saint Petersburg Mint. Fr-159; C-178; cf.Bit-57; cf.Sev-603. Struck in platinum. The only example ever seen by either grading service. The bottom of the "0" is clearly evident beneath the "1", with the top of the"1" extending well above the tops of the other digits in the date. Well struck, especially given the hardness of the metal. The details in St. George as he slays the dragon are simply phenomenal. Proof-like fields that accentuate the frosty white devices completes the look of this fabulous Russian rarity.

Some background information on the issue: The minting of platinum coinage in 19th century Russia was done on a very limited basis and for less than two decades. The new coinage denominations were not well received by the public, as the pale white metal was unfamiliar in circulation. In 1845, an imperial decree was issued ordering the minting of platinum coinage to cease. Simultaneously, the existing pieces were ordered to be recalled within a six month period. For this reason, much of the original mintages were redeemed and destroyed, which accounts for their great rarity today. The six month period for redemption was too short to be completely effective and is largely responsible for the handful of remaining examples known today. **PCGS MS-62 Secure Holder. ..... $20,000-$30,000**

31181 Silver 10 Kopek, 1832-CNBHT. C-164.1; Bit-347. RARE. One at this grade, with three certified finer at NGC and PCGS. First year of issue, the type went on to be struck for another 27 years, with the 1832 having the lowest mintage of the entire run at 104,000. Toned reflective fields on the obverse with oranges and amber within the predominantly gray surfaces. The reverse is similar though less homogeneous with some darker tone scattered about the central field. We could find only two other examples that have sold at in auction over the last few years. **NGC MS-61. ..... $700-$1000**

31182 Ruble, 1834-CNBHT. C-168.1; Bit-161. Softly struck evidenced by the following: matching weakness in both the central shield of the eagle and the center of reverse inscription, as well as flatness of reverse crown. Soft luster with nice toning displaying blue, green, orange and rose hues. **NGC MS-62. ..... $700-$1000**

31183 5 Ruble, 1834-CNBNA. Fr-155; C-175.1; Bit-9. Not encountered nearly as frequently as dates from the early 1840s, the example up for bid has full detail and plenty of luster for the assigned grade. **PCGS AU-58 Secure Holder. ..... $800-$1000**

Awarded to students of Imperial Universities (except Juriev's and Alexander's Universities). Type with added dhoti. Evidence of light cleaning, both sides, in the form of hairlines in the fields. The devices appear as struck with crisp detail, along with sharp nearly flawless rims. 31186 5 Ruble, 1839. St. Petersburg Mint. Nicholas I (1825-55). Fr-155; C-175.1. A much tougher date than the catalog mintage figure would suggest, and far scarcer than issues from the early 1840s struck a few years later. That said, the example offered shows plenty of mint luster with semi proof-like obverse fields. The reverse looks as if it were struck by a die close to end-of-life, with extensive die cracking exhibited. An interesting coin to explore up close. **PCGS AU-58 Secure Holder. ..... $900-$1200**

Stunning 1858 Proof Ruble

RUSSIA

31194 Ruble, 1858-CNBOB. Alexander II (1855-81). C-168.1; Bit-48. Finest graded, and no doubt the finest in existence for the type. The kind of coin numismatic dreams are made of, in unequaled condition and of such spectacular beauty that it can only be described as seductive. Icy hard deep mirror proof fields and frosty razor-sharp details all through the legends and devices. The incuse treatment of the edge legends are just as impressive, deeply sunk without the slightest swelling of the surface metal. As close to perfection as one can get given the technology used to produce it, and meticulously preserved. **NGC PROOF-66 ULTRA CAMEO. ..... $35,000-$45,000**

Nearly all of these (in every date) were melted after a currency reform was instituted a few years after this coin was struck. A delightful example with plenty of remaining luster in the obverse legends and reverse fields. 31212 3 Kopek Pattern, 8981 (1898). Berlin Mint. Nicholas II (1894-1917). KM-Pn157; Bit-374; Brekke-8. Date in retrograde. RARE. Mostly red example of this exotic pattern with reversed legends and dated 8981. Seldom offered and quite elusive. Brekke estimated only a few pieces exist in private hands outside of a single example at the Hermitage Museum. Struck as a marketing effort by the Germans to gain a coinage concession from Russia at a time when the St. Petersburg mint could not keep up with demand. In addition to the reverse legends, a German eagle was used in place of the Russian double headed eagle. This coin offered is a great opportunity to add this RARE pattern to your collection. **NGC MS-62 RB. ..... $3500-$5000**

31213 2 Kopek, 8981 (1898). Berlin Mint. Nicholas II (1894-1917). Bit-376; KM-Pn156; Brekke-7. RARE. Brown example of this exotic pattern with reverse legends and dated 8981. Seldom offered and quite elusive. Brekke estimated only a few pieces exist in private hands outside of a single example at the Hermitage Museum. Struck as a marketing effort by the Germans to gain a coinage concession from Russia at a time when the St. Petersburg mint could not keep up with demand. In addition to the reverse legends, a German eagle was used in place of the Russian double headed eagle. A companion to the previous lot denominated as 3 Kopek. **NGC MS-61 BN. ..... $3500-$5000**

31214 10 Ruble, 1899-AT. Fr-179; Y-64; Bit-4; Sev-569. Exceptionally clean obverse fields with satin luster leaping from the surface from every angle of view. A few light abrasions in the revers fields. No question one of the nicer examples extant and sure to be a welcome addition to any collection of Russian gold. **NGC MS-64. ..... $900-$1200**

31217 10 Ruble, 1909-EB. Fr-179; Y-64; Bit-14: Sev-589. Much less common than 10 Ruble coins from earlier in the first decade of the 20th century, with a mintage of just 50,000 pieces. Lots of luster and a full strike, some ever so light handling marks consistent with the grade. **NGC MS-62. ..... $1000-$1200**

31218 5 Ruble, 1910-EB. Fr-180; Y-62; Bit-36; Sev-590. Scarce date, relatively low mintage of 200,000 pieces (compared to the series) hence quite elusive. Clean portrait with a few light breaks to the field luster. **NGC MS-62. ..... $700-$1000**

31219 10 Ruble, 1911-EB. Nicholas II (1894-1917). Fr-179; Bit-16; Y-64. Better date. Mintage of 50,000 pieces, and the last year of the series. Well struck and beautiful. **NGC MS-63. ..... $700-$1000**

31220 5 Ruble, 1911-EB. Fr-180; Y-62; Bit-37; Sev-592. RARE date. Luster in the legends, with no major marks on the portrait, and fields that have evidence of very light circulation. **PCGS AU-58 Secure Holder. ..... $2000-$3000**

31221 15 Kopek, 1912-CNBEB. Nicholas I (1894-1917). Y-21a.2; Bit-13. Proof with light fog to the fields that can not hold back the black/white contrast with the legends and devices. Sharp edges and reeding, a delightful example of the issue. **NGC PROOF-64 CAMEO. ..... $1200-$1500**

31222 Ruble, 1912-EB. Y-68; Bit-334. Centenary of Napoleon's defeat commemorative. Handsome even cabinet toning, with some mild blue hues and underlying luster. **NGC MS-63. ..... $2000-$3000**

31223 Ruble, 1914-BC. Y-71; Bit-326. Struck to commemorate the 200th anniversary of the Battle of Gangut, a naval battle against Sweden that resulted in the first ever victory for the Russian navy. In a modern sense, the Russian navy didn't exist prior to the reign of Peter The Great, with the battle having vindicated The Tsar's policies to greatly expand it. The anniversary of the battle is still celebrated even today. The coin at hand is a terrific representation of the issue, just a breath away from uncirculated, and teaming with bright mostly white luster. Do not miss this opportunity to add this always in demand Russian crown to your collection. **PCGS AU-58 Secure Holder. ..... $15,000-$17,500**

31224 Ruble, 1915-BC. Y-59.3; Bit-70. Last year of issue for this series, and at a time when Tsar Nicholas II's reign had begun to crumble in earnest. After initial military success the previous year, the Russian Army was routed midway through 1915, losing most of Poland along with Lithuania. Things would only get worse as the war progressed, but it can be said that the fate of the monarchy was almost sealed the year this coin was struck. From a minuscule mintage of just 5,000 pieces. Extraordinary state of preservation. The key to the series, this coin is a real slice of Russian history. **NGC MS-64. ..... $2000-$2500**

31225 Ruble, 1915-BC. Y-59.3; Bit-70. Clean portrait with no abrasions or marks. Lightly toned along with flawless sharp rims. From a mintage of only 5,000 pieces, and the key to the series. **NGC MS-63. .....$1200-$1500**

31226 Chervonetz (10 Ruble), 1923. Leningrad Mint. Fr-181; Y-85. Pretty much the first coin to feature what would go on to be classic Soviet-style iconography, including the mix of industrial and agricultural scenes in the same design. Most of the other Soviet satellite countries adopted similar coinage artwork in the 1950s, most notably Romania. Brilliant with honey gold luster and a smattering of light marks. **PCGS MS-62 Secure Holder. .....$2000-$2500**

31228 Group of Soviet Orders Awarded to Colonel Georgiy Gregorevich Joganov, ND (ca. 1947). 8 pieces in lot. This intriguing lot includes: The Star of the Order of Suvarov, Third Class (Vernon-350; Werlich-1288) numbered 224 with ribbon. The Order of the Patriotic War, Second Class (Vernon-364; Werlich-1294). The Star of The Order of the Red Star (Vernon-368; Werlich-1295). The Order of the Red Banner (Vernon-374; Werlich-1281). The Medal For Valor (Vernon-394; Werlich-1310). The Medal for Meritorious Service in Battle (Vernon-397; Werlich-1311). The Defense of Moscow Campaign Medal (Vernon-413). The Medal for Victory Over Germany in the Great Patriotic War (Vernon-419). The final five medals are mounted as a group on a pinback bar. Also included, the Orders Book for all the numbered medals (five) which includes a photograph of Colonel Joganov wearing these medals. All the numbers in the Orders Book match the numbers on the medals. Of note is the especially low number of the Order of Suvorov, 224. (Another example numbered 2982 recently sold for $6,105 after thirty bids on eBay). Somewhere along the line the Orders Book suffered some minor water damage resulting in rust stains from the staples and a bit of paper loss where the photo was once stuck to the following page, but still very presentable. The medals boast fine, complete enamels, except for some minor damage to the tips of two points of the star on the Order of the Red Star. An extraordinary opportunity to acquire the exalted decorations or a true war hero in their entirety. **SOLD AS IS/NO RETURNS. VERY FINE. .....$7000-$9000**

31239 POUND, (1947). KM-35. American eagle, ingot punch of "U.S. MINT, PHILADELPHIA"; Reverse: Three line statement of gold weight, 0.2354 Troy Ounce. Once called the ARAMCO issue (Arabian-American Oil Company), these gold pieces equal to one and four Pounds, struck as concession payments in lieu of increasingly scarce British gold Sovereigns. 31288 Geneva. Taler, 1794-TB. Dav-1768; KM-98; HMZ-2-339g; Divo-162. Also known as a Genevoise (10 Decimes). Intriguing portrait with a castle nestled in Liberty's hair. Pleasing amber gold toning and a sharp strike. Reverse legend reads: "Apres Les Tenebres la Lumiere". The phrase came to be adopted as the Calvinist motto, and was subsequently adopted as the motto of the entire Protestant Reformation. It was initially used by John Calvin's adopted city of Geneva on their coins. As a mark of its role in the Calvinist movement, the motto was also engraved on the Reformation Wall in Geneva. From the canton of Neuenburg, from which some of the oldest traces of human habitation have been recorded, dating back 13,000 years. The coin offered is denominated both as a fractional Taler and Ecu, reflecting the mixture of French and German influence on this area of Switzerland at the time it was struck. Exceptionally well preserved for the issue, with a Krause catalog value of $4,000 in EF (highest listed condition) and 4,000 CHF in "vz" according to HMZ. Lightly iridescent toned with an astonishing amount of detail present, especially in the head and face of the guard. A coin struck the first year Switzerland had been forced into a Republican form of government by invading Napoleonic forces, and historically significant as such. Much as the local denizens resented the foreign meddling by the French, one can say that the seeds of a Swiss national identity began the year this coin was struck, or more specifically, after April 14, 1798 when the Helvetian Republic was declared "one and indivisible" by the cantonal assembly. The Atteck Family Collection of West Indies Holey Dollars

Stack's Bowers Galleries is pleased to present the Atteck Collection of Caribbean "Holey Dollars." This collection of 32 pieces has its beginnings in mid-19th century Trinidad, when some of these interesting and rare pieces may still have been used in commerce.

The practice of cutting holes in Spanish-American silver coins traces its history to the small island of Dominica in the 1760s and early 1770s. At that time heart-shaped pieces were cut out of the centers of Spanish dollars (8 reales) and lesser denomination silver coins. This was done in order to reduce the weight of the coins, discouraging their use in the export trade. An island such as Dominica had no natural silver resources with which to replace coins that were shipped away. The heart-shaped segments removed from these early issues were not saved, but instead were melted. In later years through the early 1800s, Dominica continued the practice of cutting holes in dollars, although the heart shape was changed to a circular, crenated hole. For these later issues, the center pieces were saved, die stamped and used as circulating coinage.

By the early 19th century, the practice of cutting holes in Spanish-American dollars had spread to other Caribbean islands, including Trinidad and Guadeloupe, where the British had taken control in 1804 and 1811 respectively. In 1811 the British Administration in Guadeloupe ordered 10,000 Spanish dollars to be holed and stamped, with both the cut-out piece (1/9th of the total weight of the dollar) and the dollar ring circulating as separate coins. In this case, a square hole was used.

In that same year, the silver specie of the island of Trinidad was decimated as a result of an increase in the price of the dollar in England. To prevent this, the government authorized cutting holes in a number of Spanish dollars not to exceed 25,000 pieces. The hole was to be octagonal and of a weight of 46 grains. These cut-out pieces were to be worth one Bitt, while the ring dollar was worth nine Bitts.

The Atteck Collection features Holey Dollars from all three of these Caribbean islands, predominantly from Guadeloupe and Trinidad, but with a single example from Dominica.

The collection originated with Louis Atteck of Trinidad, grandfather of Philip Atteck, the late husband of our consignor. Louis Attack (Chan a Tak) left Hong Kong in 1862 bound for Trinidad on the sailing ship Maggie Miller, one of 549 Chinese people who embarked on the voyage. A massive typhoon in the Indian Ocean disabled the ship, however she managed to make it to the British island colony of Mauritius and disembark her passengers there. The passengers were quarantined on Mauritius for six weeks before they were able to continue their journey on the ship Wanata, which arrived in Trinidad on July 3, 1862. However, due to illness and factional fighting between different ethnic groups, only 467 of the original 549 passengers survived to reach their ultimate destination.

Louis Atteck was one of those survivors and his move to Trinidad proved to be a great success. After arriving, his indenture was paid off by Mr. Lee Hang, an established Chinese merchant who had arrived on the island several years earlier. By 1877, only 15 years later, Louis Atteck was the wealthiest Chinese man in Trinidad, owning a large cocoa estate in Brothers Road, Tableland, in south Trinidad. He also owned a shop that he rented out near Mission, a town that was later renamed Princestown in honor of a visit from two English princes. An article in the Trinidad Chronicle of January 1877 stated: "Atteck, a Chinaman, also a Mission shopkeeper and property holder, is considered to be worth twelve thousand pounds. He is now a Christian. …" We can only speculate whether any of the currently offered Holey Dollars came to Louis Atteck through transactions in his shop. In any event, the collection is one of the largest concentrations of such pieces to be offered in one auction and its pedigree adds much historical interest. We are pleased to offer these fascinating pieces to a new generation of collectors.

31325 Dominica. 11 Bits (8 Shillings 3 Pence), ND (Authorized September 12, 1798). 23.11 gms (356.63 grains). KM-3.3; Prid-21. Mexico City 8 Reales, 1797-FM with central circular cut out of 15 crenations. When authorized the amount to be cut was 4,000 dollars. However, in a report dated March 1, 1816, states that 5,000 were cut in 1798. The central cutout segments were given the general name for cut money, "Moco", they circulated at 1 1/2 Bitts (1 Shilling 1 1/2 Pence) and were stamped with a radiate script "D". In August of 1813 further mutilation was authorized where more was removed and values inflated thus lending to the rarity of the present example. Several scratches appear radiate from the portrait side's central hole, most likely present before removal of the center took place. Well worn with a couple of edge bumps and minor encrustation. Attractive grey patina which deepens towards the edge. **NGC VG Details—Scratches. .....$1000-$1500**

A true rarity and the highest denomination of this rare 1954 Netherlands New Guinea issue. The note is the first we have offered on the design type in any form and rarely appears in any public sale. We are unaware of issued notes that exist leading us to believe that these specimens form the only way to illustrate the design type. The quality observed is striking with excellent centering of the impression along with bold color and original paper. Queen Juliana, right center. Bird left. Deeply watermarked paper and seen with specimen serial numbers in a "ladder," format. A lot which may make our estimate seem conservative.

32160 **Bank of New Zealand. 1 Pound, 1.10.1928. P-S234.** This remarkable note is one that will certainly garner significant interest from collectors. The bright BWC styling utilizes a bold purple color with ornate under-printing in multi-color. Portrait of King Tawhiao, center. Handwritten signature at left with printed sign, right. The quality here is of extreme importance as this issue is typically only offered in low end Fine states. Original and with circulation so subtle, we cannot detect where it lies looking through the encapsulation surface.

Rare Republica de Panama "Arias" Five Balboas

PANAMA

32167 **Republica de Panama. 5 Balboas, 1941. P-23a.** This extremely scarce Five Balboas 1941 series note is one that is frequently missing in even advanced collections. Annual auction appearances are roughly a piece or two and this pleasing Very Fine note retains great color and detail. Blue primary under-printed color and a transition to purple at center and orange guilloche at left and right. A standing vignette of Urraca is found at left and blue color is used on the back. Just a few flecks of rust on otherwise evenly circulated paper. The series is commonly referred to by the nickname "The Arias Issue," which references President Dr. Arnulfo Arias. The President was largely responsible for the introduction of a new article which would authorize official and private banks to circulate paper money and the first and only bank to do so was the Banco Central Emision de la Republica de Panama. The bank received the authority to circulate up to six million Balboas in banknote form, although a little less than half that number was released on October 2, 1941. The most fascinating aspect of this series was the incredibly short period of circulation, lasting over a week. This short stint was due to Dr. Ricardo Adolfo de la Guardia Arango becoming president in a cooperative with the United States. The new leadership quickly closed the bank and withdrew the notes from circulation, at the same time destroying the remaining stocks. The short circulation period resulted in the high rarity of the notes today, especially the higher denominations.

Certainly a great research item and also one that will add depth to any collection it enters.

Included are face and back drawings in color of a 50, 100 and 1,000 Escudos design with terrific renditions of these un-adopted designs. Interestingly an error looks to have been made on the 1,000 Escudos face design with 100 counters seen but a rightful MIL ESCUDOS written, the back is with the correct 1000 counters. Also included in the lot are several photographs used for inspiration. Truly a unique lot that may prove our estimate conservative.

It could be considered an especially flagrant rebuke given the use of the boar in a culture that abstains from consuming pork. Countermarks **FINE FAIR. ..... $100-$150**

33368 Plaster Models, ca. 1992-97. Bruce-X41; cf.X1a.1. 3 pieces in lot. Possibly unique set of plaster models for Irish Ecu patterns that were created in the mid-1990s. Grouping consists of 3 plaster galvanos of varying diameter. The most desirable being a matched pair (obverse and reverse) for the 1997 Ireland 25 Ecu as X-41. Also, a single unlisted galvano for what would have been the reverse of a gold 100 Ecu, though it appears this same design was possibly used on lower denominations as described (no photo) in Bruce. The pieces have all different diameters, measuring between 196mm and 229mm each. The Ecu was strictly a unit of accounting at the time and not a currency, though it was subsequently replaced by the Euro on a 1 to 1 basis in 1999. An unusual offering, with some evidence of mishandling resulting in minor chips to some of the design, but without major flaws. Inspection advised. **SOLD AS IS/NO RETURNS. ..... $300-$500**

Terms & Conditions

1. Auction Basics. This is a public auction sale ("Auction Sale") conducted by bonded auctioneers, Stack's Bowers Galleries or Stack's Bowers and Ponterio (hereinafter referred to as "Auctioneer" and at times as "Stack's Bowers"). Bidding in this Auction Sale constitutes acceptance by you ("Bidder") of all the Terms of Sale stated herein. Bidders may include consignors who may bid and purchase lots in the Auction Sale consigned by the consignor or by other consignors pursuant to their consignment agreement with Stack's Bowers ("Consignor" or "Consignors"). A Consignor that bids on their own lots in the Auction Sale may pay a different fee than the Buyer's Premium charged to all other Buyers. Stack's Bowers reserves the right to include in any auction sale its own material as well as material from affiliated or related companies, principals, officers or employees. Stack's Bowers may have direct or indirect interests in any of the lots in the auction and may collect commissions. THE TWO PRECEEDING SENTENCES SHALL BE DEEMED A PART OF THE DESCRIPTION OF ALL LOTS CONTAINED IN THE CATALOG. Where the Consignor has repurchased a lot and the lot is either returned to the Consignor or otherwise dealt with or disposed of in accordance with the Consignor's direction, or pursuant to contractual agreement, Stack's Bowers reserves the right to so note in the prices realized or to omit a price from the prices realized. Stack's Bowers and its affiliates may bid for their own account at any auction. Stack's Bowers and its affiliates may have information about any lot that is not known publicly, and Stack's Bowers and its affiliates reserves the right to use such information, in a manner determined solely by them and for their benefit, without disclosing such information in the catalog, catalog description or at the auction. Bidder acknowledges and agrees that Stack's Bowers and its affiliates are not required to pay a Buyer's Premium, or other charges that other Bidders may be required to pay and may have access to information concerning the lots that is not otherwise available to the public. Any claimed conflict of interest or claimed competitive advantage resulting therefrom is expressly waived by all participants in the Auction Sale. Lots may carry a reserve ("Reserve"). A Reserve is a price or bid below which the Auctioneer will not sell an item or will repurchase on behalf of the Consignor or for Stack's Bowers. Reserves may be confidential and not disclosed. The Buyer is the Bidder who makes the highest bid accepted by the Auctioneer, and includes the principal of any Bidder acting as an agent.

2. Descriptions and Grading. Bidder acknowledges that grading of most coins and currency in this Auction has been determined by independent grading services, and those that are not may be graded by Stack's Bowers. Grading of rare coins and currency is subjective and, even though grading has a material effect on the value of the coins and currency, grading may differ among independent grading services and among numismatists. Stack's Bowers is not responsible for the grades assigned by independent grading services, and makes no warranty or representation regarding such grades. Bidder further acknowledges and agrees that grades assigned by Stack's Bowers and lot descriptions are based solely upon an examination of the coins and currency and are intended to identify coins and currency and note any perceived characteristics. However, coin grading and descriptions are subjective. Stack's Bowers does not warrant the accuracy of such grading or descriptions, nor do they in any way form the basis for any bid. All photographs in this catalog are of the actual items being sold but may not be the actual size or to scale.

3. The Bidding Process. The Auctioneer shall have the right to open or accept the bidding on any lot by placing a bid on behalf of the Consignor or his or her agent; a Bidder by mail, telephone, Internet or telefax; or any other participant in the Auction Sale. Bids must be for an entire lot and each lot constitutes a separate sale. All bids (excluding Internet bids) must be in increment as established by the Auctioneer, or half increment (a cut bid). Non-conforming bids will be rounded up or down to the nearest full or half increment and this rounded bid will be the bidder's high bid. No lot will be broken up unless otherwise permitted by the Auctioneer. Lots will be sold in their numbered sequence unless Auctioneer directs otherwise. All material shall be sold in separate lots to the highest Bidder as determined by the Auctioneer. Auctioneer shall have the right in its sole and absolute discretion to accept or decline any bid, establish bid increments, challenge any bid or bidding increment, to reduce any mail bid received, adjudicate all bidding disputes, to exclude any bidder and to determine the prevailing bid. The Auctioneer shall have the right, but not the obligation, to rescind the acceptance of any bid and place the lot(s) for Auction Sale again. Auctioneer's decision on all bidding disputes shall be binding and final. For the mail and Internet Bidder's protection, no "unlimited" or "buy" bids will be accepted. When identical bids are received for a lot, preference is given to the first bid received as determined by the Auctioneer. A mail bid will take precedence over an identical floor bid; a Floor Bidder, Telephone Bidder and Live Internet Bidder must bid higher than the highest mail bid to be awarded any lot. Cut bids are only accepted on bids greater than $500 and each bidder may only execute one cut bid per lot. Bids will not be accepted from persons under eighteen (18) years of age without a parent's written consent which acknowledges the Terms of Sale herein and agrees to be bound thereby on behalf of the underage Bidder. The auction sale is complete when the Auctioneer so announces by the fall of the hammer or in any other customary manner.

THIS IS NOT AN APPROVAL SALE. Bidders who physically attend the Auction sale, either personally or through an agent ("Floor Bidders") should carefully examine all lots which they are interested in purchasing. Bidders who bid by telephone, either personally or through an agent, or through our live auction software receive a similar benefit as Floor Bidders in being able to actively participate in the live Auction Sale ("Telephone Bidders" and "Live Internet Bidders"). Except as otherwise expressly provided in these Terms of Sale, NO PURCHASED ITEMS MAY BE RETURNED FOR ANY REASON. All prospective Bidders who examine the lot(s) prior to the Auction Sale personally assume all responsibility for any damage that Bidder causes to the lot(s). Stack's Bowers shall have sole discretion in determining the value of the damage caused, which shall be promptly paid by such Bidder.

Certain auctions (iAuctions), will be conducted exclusively over the Internet, and bids will be accepted only from pre-registered Bidders.

STACK'S BOWERS IS NOT RESPONSIBLE FOR ANY ERRORS IN BIDDING. All Bidders should make certain to bid on the correct lot and that the bid is the bid intended. Once the hammer has fallen and the Auctioneer has announced the Buyer, the Buyer is unconditionally bound to pay for the lot, even if the Buyer made a mistake. Stack's Bowers reserves the right to withdraw any lot at any time, even after the hammer has fallen, until the Buyer has taken physical possession of the lot. No participant in the Auction Sale shall have a right to claim any damages, including consequential damages if a lot is withdrawn, even if the withdrawal occurs after the Auction Sale.

4. Bidder Registration Required. All persons seeking to bid must complete and sign a registration card either at the auction or online, or otherwise qualifying to bid, as determined in the sole discretion of the Auctioneer. By submitting a bid, the Bidder acknowledges that Bidder has read the Terms and Conditions of Auction Sale, the descriptions for the lot(s) on which they have bid, and that they agree to be bound by these Terms of Sale. This agreement shall be deemed to have been made and entered in California. The Bidder acknowledges that the invoice describing a lot by number incorporates the catalog and Terms of Sale. Person appearing on the OFAC list are not eligible to bid.

5. Buyer's Premiums. A premium of seventeen and one-half percent (17 1/2%) based upon the total amount of the hammer (minimum of $15), will be added to all purchases of individual lots, regardless of affiliation with any group or organization (the "Buyer's Premium"). A reacquisition charge may apply to Consignors pursuant to a separate agreement, which may be higher or lower than the Buyer's Premium.

6. Payment. Payment is due immediately upon the fall of the auctioneer's hammer. Payment is delinquent and in default if not received in full, in good funds, within fourteen (14) calendar days of the Auction Sale (the "Default Date"), without exception, time being of the essence. Unless otherwise agreed in writing prior to the Auction Sale, all auction sales are payable strictly in immediately available good U.S. funds, through a bank in the United States. Payments may be made by credit card, Paypal, check, wire transfer, money order and cashier's check. Cash transactions will be accepted in the sole discretion of Stack's Bowers, and if accepted, for any cash transaction or series of transactions exceeding $10,000, a Treasury Form 8300 will be filed. Contact Stack's Bowers for wiring instructions before sending a wire. We accept payment by Visa, MasterCard, American Express, Discover or Paypal for invoices up to $2,500, with a maximum of $10,000 in any 30 day period. All payments are subject to a clearing period. Checks drawn on U.S. banks will be subject to up to a 10 business day hold, and checks drawn on foreign banks will be subject to a 30 day hold. Stack's Bowers reserves the right not to release lots for which good funds have not yet been received. On any past due accounts, Stack's Bowers reserves the right, without notice, to extend credit and impose carrying charges (as described below). Buyers agree to

pay reasonable attorney's fees and cost incurred to collect past due accounts. Buyers personally and unconditionally guarantee payment in full of all amounts owed to Stack's Bowers. Any person submitting bids on behalf of a corporation or other entity, by making such bid, agrees to be personally jointly and severally liable for the payment of the purchase price and any related charges and the performance of all Buyer obligations under these Terms of Sale and Stack's Bowers reserves the right to require a written guarantee of such payments and obligations. Bidders who have not established credit with Stack's Bowers must furnish satisfactory information and credit references and/or deposit at least twenty-five percent (25%) of their total bids for that Auction Sale session(s) or such other amount as Stack's Bowers may, in its sole and absolute discretion require before any bids from such Bidder will be accepted. Deposits submitted will be applied to purchases. Any remaining deposits will be promptly refunded, upon clearance of funds.

7. Sales Tax. Buyers will be charged all applicable sales tax, including Buyers who pick up at this Auction or shipments to Buyers in California and New York without a valid Resale Certificate which has been provided to the Auctioneer prior to the auction. Please note that the purchase of any coin or bullion lot(s) with a price, including the Buyer's Premium, in excess of: (i) One Thousand Dollars ($1,000), for auctions held in Maryland, are exempt from Maryland sales tax, and (ii) One Thousand Five Hundred Dollars ($1,500) are exempt from California sales tax. These exemptions do not apply purchases of currency. Purchases of coins and currency are exempt from sales tax in Illinois. Purchases of coins and bullion are exempt from sales tax in Pennsylvania, but currency purchased at auctions held in Pennsylvania are subject to Pennsylvania sales tax. Please note, this is not, and is not intended to be, a complete description of applicable sales tax laws in all jurisdictions. In the event any applicable sales tax is not paid by Buyer that should have been paid, even if not such tax was not collected by Stack's Bowers by mistake, error, negligence or gross negligence, Buyer nonetheless remains fully liable for and agrees to promptly pay such taxes on demand, together with any interest or penalty that may be assessed by the taxing authority.

8. Financial Responsibility. In the event any applicable conditions of these Terms of Sale herein are not complied with by a Buyer or if the Buyer fails to make payment in full by the Default Date, Stack's Bowers reserves the right, in its sole discretion, in addition to all other remedies which it may have at law or in equity to rescind the sale of that lot or any other lot or lots sold to the defaulting Buyer, retaining all payments made by Buyer as liquidated damages, it being recognized that actual damages may be speculative or difficult to compute, and resell a portion or all of the lots held by Stack's Bowers, in a commercially reasonable manner, which may include a public or private sale, in a quantity sufficient in the opinion of Stack's Bowers to satisfy the indebtedness, plus all accrued charges, and Stack's Bowers may charge a seller's commission that is commercially reasonable. More than one such sale may take place at the option of Stack's Bowers. If Stack's Bowers resells the lots, Buyer agrees to pay for the reasonable cost of such sale, together with any incidental costs of sale, including reasonable attorney's fees and costs, cataloging and any other reasonable charges. Notice of the sale shall be by U.S.P.S. Certified Mail, Return Receipt Requested to the address utilized on the Bid Sheet, Auction Consignment and Security Agreement or other last known address by Stack's Bowers. The proceeds shall be applied first to the satisfaction of any damages occasioned by Buyer's breach, then to any other indebtedness owed to Stack's Bowers, including without limitation, commissions, handling charges, carrying charges, the expenses of both sales, seller's fees, reasonable attorneys' fees, costs, collection agency fees and costs and any other costs or expenses incurred. Buyer shall also be liable to Stack's Bowers for any deficiency if the proceeds of such sale or sales are insufficient to cover such amounts.

Buyer grants to Stack's Bowers, its affiliates and assignees, the right to offset any sums due, or found to be due to Stack's Bowers, and to make such offset from any past, current, or future consignment, or purchases that are in the possession or control of Stack's Bowers; or from any sums due to Buyer by Stack's Bowers, its affiliates and assignees. In addition, defaulting Buyers will be deemed to have granted to Stack's Bowers, its affiliates and assignees, a security interest in: (x) the purchased lots and their proceeds, and (y) such sums or other items and their proceeds, in the possession of Stack's Bowers, its affiliates or assignees, to secure all indebtedness due to Stack's Bowers and its affiliated companies, plus all accrued expenses, carrying charges, seller's fees, attorney fees, and costs, until the indebtedness is paid in full. Buyer grants Stack's Bowers the right to file a UCC-1 financing statement for such items, and to assign such interest to any affiliated or related company or any third party deemed appropriate by Stack's Bowers. If the auction invoice is not paid for in full by the Default Date, a carrying charge of one-and-one-half percent (1-1/2%) per month may be imposed on the unpaid amount until it is paid in full. In the event this interest rate exceeds the interest permitted by law, the same shall be adjusted to the maximum rate permitted by law, and any amount paid in excess thereof shall be allocated to principal. Buyer agrees to pay all reasonable attorney's fees, court costs and other collection costs incurred by Stack's Bowers or any affiliated or related company to collect past due invoices or to interpret or enforce the terms hereof or in any action or proceeding arising out of or related to the Auction Sale. Stack's Bowers reserves the right to assign its interest to any third party. To the extent that the Buyer for any lot consists of more than one person or entity, each such person or entity is jointly and severally liable for all obligations of the Buyer, regardless of the title or capacity of such person or entity. Stack's Bowers shall have all the rights of a secured creditor under Article 9 of the California Commercial Code and all rights of the consignor to collect amounts due from the Buyer, whether at law or equity.

9. Shipping. It is the Buyer's responsibility to contact Stack's Bowers after the sale to make shipping and packaging arrangements. Due to the fragile nature of some lots, Stack's Bowers may elect not to assume responsibility for shipping or packing, or may charge additional shipping and handling. Lots indicated as being "framed" or that are specifically identified in the catalog are shipped at Buyer's risk. All taxes, postage, shipping, if applicable, handling, insurance costs, the Buyer's Premium, and any other fees required by law to be charged or collected will be added to the invoice for any lots invoiced to Buyer. All lots will be shipped FOB Destination, freight prepaid and charged back. Title and risk of loss pass to the Buyer at the destination upon tender of delivery. Acceptance of delivery constitutes acceptance of the purchased lots. Inspection of the purchased lots is not required for acceptance. Any and all claims based upon Buyer's failure to receive a purchased lot, Buyer's receipt of a lot in damaged condition, or otherwise related to delivery, must be received in writing by Stack's Bowers no later than the earlier of thirty (30) days after payment, or the date of the Auction Sale (the "Outside Claim Date"). As Buyers may not receive notification of shipment, it is Buyer's responsibility to keep track of the Outside Claim Date and make timely notification of any such claim. The failure to make a timely claim, time being of the essence, shall constitute a waiver of any such claim. Orders paid by credit card will only be shipped to the verified address on file with the credit card merchant.

10. DISCLAIMER AND WARRANTIES. NO WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE IS MADE OR IMPLIED ON ANY LOT. NO WARRANTY, WHETHER EXPRESSED OR IMPLIED, IS MADE WITH RESPECT TO ANY LOT EXCEPT FOR WARRANTY OF TITLE, AND IN THE CASE OF TITLE, AUCTIONEER IS SELLING ONLY THAT RIGHT OR TITLE TO THE LOT THAT THE CONSIGNOR MAY HAVE AS OF THE AUCTION SALE DATE. ALL LOTS ARE SOLD "AS IS" AND WITH ALL FAULTS. PURCHASER HEREBY ASSUMES ALL RISKS CONCERNING AND RELATED TO THE GRADING, QUALITY, DESCRIPTION, CONDITION, AUTHENTICITY, AND PROVENANCE OF A LOT.

a. COINS AND CURRENCY LISTED IN THIS CATALOG GRADED BY PCGS, NGC, ANACS CACHET, ICG, PCGS CURRENCY, PMG OR ANY OTHER THIRD PARTY GRADING SERVICE OR EXAMINED BY THE BUYER PRIOR TO THE AUCTION SALE MAY NOT BE RETURNED FOR ANY REASON WHATSOEVER BY ANY BUYER, EXCEPT FOR CLAIMS RELATED TO AUTHENTICITY.

b. For non-certified coins and currency that have not been examined by the Buyer prior to the Auction Sale: if it is determined in a review by Stack's Bowers that there is a material error in the catalog description of a non-certified coin or currency or the coin or currency is not authentic, such lot may be returned, provided written notice is received by Stack's Bowers no later than seventy-two (72) hours of delivery of the lots in question, and such lots are returned and received by Stack's Bowers, in their original, sealed containers, no later than fourteen (14) calendar days after delivery, in the same condition the lot(s) were delivered to the Buyer, time being of the essence.

c. If an item or items are returned pursuant to the terms herein, they must be housed in their original, sealed and unopened container.

d. Late remittance or removal of any item from its original container, or altering a coin constitutes just cause for revocation of all return privileges.

Terms & Conditions (cont.)

e. Grading or condition of rare coins and currency may have a material effect on the value of the item(s) purchased, and the opinion of others (including independent grading services) may differ with the independent grading services opinion or interpretation of Stack's Bowers. Stack's Bowers shall not be bound by any prior, or subsequent opinion, determination or certification by any independent grading service.

f. Questions regarding the minting of a coin as a "proof" or as a "business strike" relate to the method of manufacture and not to authenticity.

g. All oral and written statements made by Stack's Bowers and its employees or agents (including affiliated and related companies) are statements of opinion only, and are not warranties or representations of any kind, unless stated as a specific written warranty, and no employee or agent of Stack's Bowers has authority to vary or alter these Terms and Conditions of Auction Sale. Stack's Bowers reserves the right to vary or alter the Terms of Sale, either generally or with respect to specific persons or circumstances, in its sole discretion. Any variation or alteration shall be effective only if in writing and signed by an officer of Stack's Bowers authorized to do so.

h. Stack's Bowers is acting as an auctioneer. Title to the lots purchased passes directly from the Consignor to the Buyer. Accordingly, Stack's Bowers is not making, and disclaims, any warranty of title.

i. Bidder acknowledges that the numismatic market is speculative, unregulated and volatile, and that coin prices may rise or fall over time. Stack's Bowers does not guarantee or represent that any customer buying for investment purposes will be able to sell for a profit in the future.

j. Bidder acknowledges and agrees that neither Stack's Bowers, nor its employees, affiliates, agents, third-party providers or consignors warrant that auctions will be unimpaired, uninterrupted or error free and accordingly shall not be liable for such events.

11. Waiver and Release. Bidder, for himself, his heirs, agents, successors and assignees, generally and specifically waives and releases, and forever discharges Stack's Bowers, and its respective affiliates, parents, officers, directors, shareholders, agents, subsidiaries, employees, managers and members and each of them, and their respective successors and assignees from any and all claims, rights, demands and causes of actions and suits, of whatever kind or nature, including but not limited to claims based upon Auctioneer's negligence, whether in law or equity, tort or otherwise, whether known or unknown, suspected or unsuspected (a "Claim"), which Bidder may assert with respect to and/or arising out of, or in connection with any challenge to the title to or authenticity of any goods purchased, the sale itself, any lot bid upon or consigned, and/or the auction, except where such Claim is otherwise expressly authorized in these Terms of Sale. It is the intention of Bidder that this waiver and release shall be effective as a bar to each and every Claim that may arise hereunder or be related to the Auction Sale, and Bidder hereby knowingly and voluntarily waives any and all rights and benefits otherwise conferred upon him by the provisions of Section 1542 of the California Civil Code, which reads in full as follows:

"A GENERAL RELEASE DOES NOT EXTEND TO CLAIMS WHICH THE CREDITOR DOES NOT KNOW OR SUSPECT TO EXIST IN HIS OR HER FAVOR AT THE TIME OF EXECUTING THE RELEASE, WHICH IF KNOWN BY HIM OR HER MUST HAVE MATERIALLY AFFECTED HIS OR HER SETTLEMENT WITH THE DEBTOR."

12. Disputes. If a dispute arises concerning ownership of a lot or concerning proceeds of any sale, Stack's Bowers reserves the right to commence a statutory interpleader proceeding at the expense of the Consignor and Buyer and any other applicable party, and in such event shall be entitled to its reasonable attorneys' fees and costs. Stack's Bowers reserves the right to cancel or postpone the Auction Sale or any session thereof for any reason whatsoever. No Bidder shall have any claim as a result thereof, including for incidental or consequential damages. Neither Stack's Bowers nor any affiliated or related company shall be responsible for incidental or consequential damages arising out of any failure of the Terms of Sale, the auction or the conduct thereof and in no event shall such liability exceed the purchase price, premium, or fees paid. Rights granted to Bidders under the within Terms and Conditions of Auction Sale are personal and apply only to the Bidder who initially purchases the lot(s) from Stack's Bowers. The rights may not be assigned or transferred to any other person or entity, whether by sale of the lot(s), operation of law or otherwise. Any attempt to assign or transfer any such rights shall be absolutely void and unenforceable. No third party may rely on any benefit or right conferred by these Terms and Conditions of Auction Sale.

Any dispute arising out of or related to these Terms of Sale, the Auction Sale or any lot, with the sole exception of actions by Stack's Bowers to collect amounts owed to it and other damages, shall be submitted to binding arbitration pursuant to the commercial arbitration rules of the American Arbitration Association, with any arbitration hearing to occur in Orange County, California. Absent an agreement of the parties, the arbitrator shall limit discovery to that which is necessary to enable the hearing to proceed efficiently. The arbitrator shall not have the power to award punitive or consequential damages, nor alter, amend modify any of the terms of this Agreement. The award by the arbitrator, if any, may be entered in any court having jurisdiction thereof. Each party shall pay one-half the costs of the arbitration. Bidder acknowledges and agrees that the competent courts of the State of California shall have exclusive in personam jurisdiction, subject to the requirement to arbitrate, over any dispute(s) arising hereunder, regardless of any party's current or future residence or domicile. Bidder further agrees that venue of the arbitration proceeding shall be in Orange County, California; and any court proceeding shall be in the Orange County Superior Court, in the State of California, and in each case waive any claim of Forum Non Conveniens. Bidder agrees that any arbitration or legal action with respect to this Auction Sale is barred unless commenced within one (1) year of the date of this Auction Sale. AUCTION PARTICIPANTS EXPRESSLY WAIVE ANY RIGHT TO TRIAL BY JURY.

13. General Terms. These Terms and Conditions of Auction Sale and the auction shall be construed and enforced in accordance with, and governed by, the laws of the State of California, regardless of the location of the Auction Sale. These Terms of Sale and the information on the Stack's Bowers' website constitute the entire agreement between the parties hereto on the subject matter hereof and supersede all other agreements, understandings, warranties and representations concerning the subject matter hereof. If any section of these Terms of Auction Sale or any term or provision of any section is held to be invalid, void, or unenforceable by any court of competent jurisdiction, the remaining sections or terms and provisions of a section shall continue in full force and effect without being impaired or invalidated in any way. Stack's Bowers may at its sole and absolute discretion, make loans or advances to Consignors and/or Bidders.

14. Special Services. If you wish to limit your total expenditures, please fill in the maximum amount you wish to spend on the MAXIMUM EXPENDITURE line at the upper portion of your bid sheet. You can then submit bids for amounts up to eight times the amount of the maximum expenditure. Due to the bookkeeping involved, this service is offered only to bidders with maximum expenditures of $1,000 or more.

Bidding in this auction sale constitutes unconditional acceptance by the Bidder of the foregoing terms of sale.

Please note: Transparent holders in which the auction lots are stored are to facilitate viewing and inspection of the lots and ARE NOT for long-term storage.

PCGS and NGC numbers provided are for bidder convenience only, we do not guarantee their accuracy. An incorrect PCGS or NGC number is not grounds to return a lot.
